PROGRAM REPORT

It is to inform that A Five day faculty development programme on "Advances In Geotechnical Engineering: Challenges And Solutions" has been successfully conducted from 17.06.2019 to 21.06.2019 (10 A.M. to 4 P.M.) at seminar Hall of Civil Department, Sri Sivani College of Engineering.

The following members are invited as the Resource persons for the seminar.

17.06.2019 to 19.06.2019: Mr. B. Govindarajulu, Asst. Prof, Dept of Civil, AITAM, Tekkali

20.06.2019 to 21.06.2019: Mr. N. Saikrishna, Asst.Prof, Dept of Civil, SSCE, Chilakapalem jn

Co-ordinator: Mr. G. Parasuram, Asst. prof, Dept of Civil, SSCE, Chilakapalem jn

Two eminent Resource persons have expressed categorically the importance of ADVANCES IN GEOTECHNICAL ENGINEERING: CHALLENGES AND SOLUTIONS All of the attendees were quite impressed and inspired by the seminar. They exhibited their curiosity and acknowledged the Seminar's significance. They consider that attending the Seminar is a practical learning opportunity for them.

OBJECTIVES OF THE PROGRAM

The Main objectives of Advances in Geotechnical Engineering is improved site characterization, Enhanced foundation design, Sustainable geotechnics, Risk mitigation and resilience to Natural hazards.

OUTCOMES OF THE PROGRAM

The main outcomes of this FDP is to know about practical outcomes of Advances in Geotechnical engineering like Solution to Soil instabilities, Design of foundation with respect to Challenge and solution, Seismic risk challenges.

Thirty Six (36) Number faculty have participated in the program.

About the Institution:

Sri Sivani College of Engineering (SSCE) is one of the colleges functioning under Sri Sivani Educational Society. SSCE is a pioneer in the field of engineering education in Srikakulam district (A.P). It was established in the year 2006 under the affiliation of JNT University, Kakinada and approved by AICTE, New Delhi. The college is UGC Recognition under 2(f) & 12(B) certified by ISO 9001:2015 and accredited by NAAC.

SSCE is situated in a spacious 11 acres campus adjacent to NH-16 at chilkapalem village. The college is easily accessible to all the districts nearby Srikakulam.

SSCE offers B.Tech programmes in E.E.E, E.C.E, C.S.E, Mechanical and Civil Engineering, besides PG programmes M.C.A, M.B.A, M.Tech and Diploma programmes like E.E.E, Mechanical, and Civil Engineering as second shift.

SSCE is completely Wi-Fi enabled and equipped with well established laboratories. The college has focused towards student centric learning atmosphere. The faculty is well qualified, experienced equipped with state of art technologies and dedicated to produce marketable products.

About the Department:

The Department of Civil Engineering was established in the academic year 2009-10 with an annual intake of 60. Since its commencement, the primary objective of the department has been to impart quality education, training and research at the undergraduate levels in Civil Engineering with broad emphasis on design aspects of Structural design, The department also providing Diploma in civil engineering with intake of 60. The Department has always been on a high growth path to keep pace with the ever increasing importance of the major disciplines of study and current technology trends. A judicious mix of experienced and young faculty with strong commitment to academics has created an ambience for learning.

Department Vision:

To be a Centre of Eminence in Civil Engineering to produce technically competent professionals.

Objective:

- 1. To understand the basics of Geotechnical Engineering.
- 2. To understand the future challenges in Geotechnical Engineering.
- 3. To understand the Challenges to be faced in Geotechnical Engineering.

Expected Outcomes:

- 1. Develop skill in understanding the Geotechnical Engineering related issues.
- 2. Ability to understand and utilize the Geotechnical basics with reference to practical problems.

How To Apply:

Completed application form as per the formats given should reach the convener latest by 14-06-2019. A scanned copy of the filled in form can also be mailed to <u>cedept.w6@gmail.com</u>. PROGRAM REPORT

A Five Day Faculty Development Programme on "BIG DATA ANALYTSICS AND DATA SCIENCE: TOOLS AND TECHNIQUES" has been successfully conducted from 24.06.2019 to 28.06.2019 (10 A.M. to 4 P.M.) at Seminar Hall of CSE Department, Sri Sivani College of Engineering.

The following members are invited as the Resource persons for the Faculty Development Programme

24.06.2019 to 26.06 2019

: Dr. Ajoy Kumar Ray Professor-IIT, KHARAGPUR

27.06. 2019 to 28.06.2019

: Mr. PRADEEP.PUPPALA, Asst. Prof DEPT OF CSE, SSCE

Mr. Y. JAGADEESH KUMAR Assist. Prof, Dept. of CSE is the co-ordinator of this program.

This FDP to equip educators in engineering colleges with the internet of things and embedded systems necessary to deliver effective and engaging instruction in Computer Science and Engineering within the engineering curriculum. All of the attendees were quite impressed and inspired by the FDP. They exhibited their curiosity and acknowledged the significance of the FDP. They consider attending the FDP to be a practical learning opportunity for them. Twenty Nine (29) faculty members have participated in this program.

OBJECTIVES OF THE PROGRAM

- The Main objectives of this FDP are
- Provide participants with a comprehensive understanding of the concepts, principles, and significance of big data and data science in various domains.
- Overview of Tools and Technologies Introduce participants to the prominent tools and technologies used in big data analytics and data science, such as Hadoop, Spark, Python, R, and others. Data Collection and Preprocessing Enable participants to understand the importance of data quality, data cleaning, and preprocessing in the context of big data analytics.

- Data Exploration and Visualization Familiarize participants with techniques for exploring and visualizing large datasets, using tools like Matplotlib, Seaborn, and Tableau.
- Statistical Analysis and Machine Learning Provide an overview of statistical techniques and machine learning algorithms used in data science applications. Cover topics like regression, classification, clustering, and model evaluation.
- Introduction to Deep Learning. Introduce participants to the basics of deep learning and neural networks, highlighting their applications and relevance in data science.
- Practical Hands-on Sessions Conduct hands-on sessions where participants can apply the concepts

OUTCOMES OF THE PROGRAM

- Upon completion of the FDP, participants should be able to:
- Understand the Fundamentals Grasp the fundamental concepts and principles of big data analytics and data science. Apply Tools and Technologies Use and apply various tools and technologies for data collection, preprocessing, exploration, and analysis.
- Perform Statistical Analysis and Machine Learning Implement statistical analysis and machine learning algorithms to extract meaningful insights from data.
- Collaborate with peers and effectively communicate findings and insights. Stay Updated
 with Industry Trends Stay informed about current trends and advancements in the field of
 big data analytics and data science. Prepare for Further Learning
- Equip themselves for further exploration and learning in the rapidly evolving field of data science.
- This combination of objectives and outcomes aims to provide a well-rounded and practical understanding of big data analytics and data science to the participants of the FDP.

ABOUT THE DEPARTMENT

The Department of Computer Science & Engineering of Sri Sivani College of Engineering was established in the year 2006 and playing a vital role in designing, developing maintaining software and hardware for the entire college. It has been offering full time B. Tech (CSE). M. Tech (CSE) courses. The Department has been advancing at a rapid pace with the acquisition of advanced facilities and dedicated teaching faculty to properly motivate and mould the students for a better and prospective tomorrow. The Department is adequately equipped with several full fledged computer laboratories and research groups in order to enhance R & D and consult

ABOUT THE INSTITUTION

Sri Sivani College of Engineering (SSCE) is one of the colleges functioning under Sri Sivani Educational Society, established in 2006 affiliated to JNTUK, Kakinada. UGC Recognition under 2(f) & 12(B). ISO 9001:2015 Certified. SSCE is situated in a spacious 12 acres campus adjacent to NH-16 at Chilakapalem, Srikakulam, Andhra Pradesh. SSCE offers B. Tech programs in Civil, C.S.E, E.E.E, E.C.E, Mechanical Engineering and PG programmes M.B.A, M.Tech and Diploma programmes for Civil. E.E.E and Mechanical

Engineering. Fully connected through Fiber

PROGRAM REPORT

A Five Day Faculty Development Programme on "Internet of Things (IOT) and Embedded Systems: Design and Implementation" has been successfully conducted from 26.08.2019 to 30.08.2019 (10 A.M. to 4 P.M.) at Seminar Hall of ECE Department, Sri Sivani College of Engineering.

The following members are invited as the Resource persons for the Faculty Development Programme

26.08.2019 to 28.08 2019

: V. Suryanarayana, Asst. Prof, Dept. of ECE

29.08 2019 to 30.08.2019

: A. Uday Kumar, Asst. Prof, Dept. of ECE

Sri Venkateswra College of Engineering and Technology,

Srikakulam

Mr. D. Chiranjivulu, Assist. Prof, Dept. of ECE is the Co-ordinator of this program.

This FDP to equip educators in engineering colleges with the internet of things and embedded systems necessary to deliver effective and engaging instruction in Electronics and communication Engineering within the engineering curriculum. All of the attendees were quite impressed and inspired by the FDP. They exhibited their curiosity and acknowledged the significance of the FDP. They consider attending the FDP to be a practical learning opportunity for them. Thirty -five (35) faculty members have participated in this program.

OBJECTIVES OF THE PROGRAM

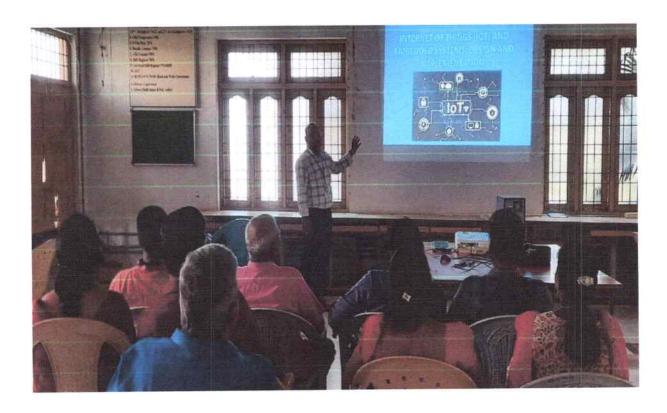

The Main objectives of this FDP are

 Internet of Things is to have device that self report in real-time, improving efficiency and bringing important information to the surface more quickly than system depending on human intervention.

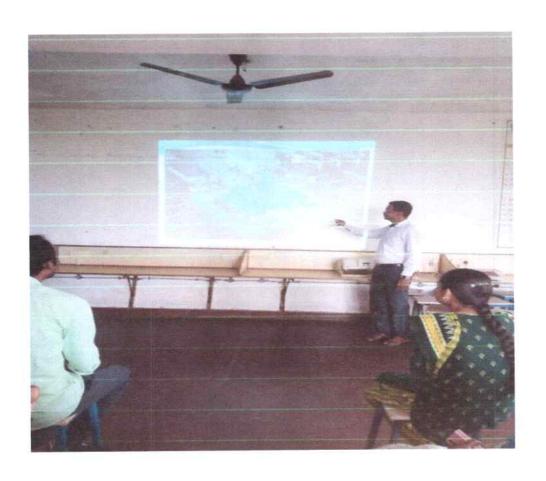

- Embedded systems is to control a specific function within a device. They are usually
 designed to only perform this function repeatedly, but more developed embedded systems
 can control entire operating systems.
- This communication can be wireless or wired, and can use a variety of protocols such as Wi-Fi, Bluetooth, and Zigbee. Embedded systems also handle the routing of data between devices.

OUTCOMES OF THE PROGRAM

- Able to understand the application areas of IOT
- Able to realize the revolution of internet in Mobile Devices, Cloud & Sensor Networks
- Able to Understand building blocks of Internet of Things and Characteristics.
- Collect and analyze telemetry from connected sensors, devices, and equipment for realtime tracking, monitoring, management, and remote control.

About the Institution:

Sri Sivani College of Engineering (SSCE) is one of the colleges functioning under Sri Sivani Educational Society. SSCE is a pioneer in the field of engineering education in Srikakulam district (A.P). It was established in the year 2006 under the affiliation of JNT University, Kakinada and approved by AICTE, New Delhi. The college is UGC Recognition under 2(f) & 12(B) certified by ISO 9001:2015 and accredited by NAAC.

SSCE is situated in a spacious 11 acres campus adjacent to NH-16 at chilkapalem village. The college is easily accessible to all the districts nearby Srikakulam.

SSCE offers B.Tech programmes in E.E.E, E.C.E, C.S.E, Mechanical and Civil Engineering, besides PG programmes M.C.A, M.B.A, M.Tech and Diploma programmes like E.E.E, Mechanical, and Civil Engineering as second shift. SSCE is completely Wi-Fi enabled and equipped with well established laboratories. The college has focused towards student centric learning atmosphere. The faculty is well qualified, experienced equipped with state of art technologies and dedicated to produce marketable products.

About the Department:

The Department of Electronics and Communications Engineering was established in the academic year 2006-07 with an annual intake of 60. Since its commencement, the primary objective of the department has been to impart quality education, training and research at the undergraduate levels in Electronics and Communication Engineering with broad emphasis on design aspects of electronic systemsThe intake was increased to 120 from the academic year 2008-09. Five batches of students have graduated so far. The Department is offering two M.Tech courses Digital Electronics & Communication Systems and VLSI (VLSI). The rapid developments in the field of Electronics triggered the inception of PG programme on VLSI in the year 2011. The Department has always been on a high growth path to keep pace with the ever increasing importance of the major disciplines of study and current technology trends. A judicious mix of experienced and young faculty with strong commitment to academics has created an ambience for learning

Department Vision:

To be a Centre of Eminence in Electronics and communication Engineering to produce technically competent professionals.

Ob ective :

- To understand fundamentals of IoT and embedded system including essence, basic design strategy and process modeling.
- To introduce students a set of advanced topics in embedded IoT and lead them to understand research in network.
- To develop comprehensive approach towards building small low cost embedded IoT system.
- To understand fundamentals of security in IoT.
- To learn to implement secure infrastructure for IoT.
- To learn real world application scenarios of IoT along with its societal and economic impact using case studies

Expected Ourcomes:

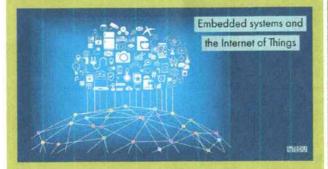

- On completion of the course, student will be able to
- Implement an architectural design for IoT for specified requirement
- Solve the given societal challenge using IoT
- Choose between available technologies and devices for stated IoT challenge

How To Apply:

Completed application form as per the formats given should reach the convener latest by 20-08-2019. A scanned copy of the filled in form can also be mailed to <u>ecedept.w6(agmail.com</u>. Title of FDP: Smart Grid Technologies: Advanced Metering and Demand Response

Date & Duration: 25th to 29th Nov 2019

Program Coordinator: Mr. P. Asish Kumar, Asst. Prof, Dept. of EEE

Program Schedule

Day-1: 25-11-2019

Name	Name of the Resource Person: Dr. G. T. Chandra Sekhar					
Time Topics to be covered						
10:00 AM to 11: 30 AM	Introduction to Smart Grid Technologies					
11:30 AM to 11:45 AM	Tea-Break					
11:45 AM to 1: 00 PM	Overview of Advanced Metering Infrastructure (AMI)					
1: 00 PM to 2:00 PM	Lunch Break					
2:00 PM to 3:00 PM	Smart Grid Communication Protocols					
3: 00 PM to 3: 15PM	Tea-Break					
03:15 PM to 4: 00 PM	Role of IoT in Smart Grids					

Day-2: 26-11-2019

Time Topics to be covered						
10:00 AM to 11: 30 AM	Components of Advanced Metering Systems					
11:30 AM to 11:45 AM	Tea-Break					
11:45 AM to 1: 00 PM	AMI Deployment Strategies and Case Studies					
1: 00 PM to 2:00 PM	Lunch Break					
2:00 PM to 3:00 PM	Security Challenges in AMI					
3: 00 PM to 3: 15PM	Tea-Break					
03:15 PM to 4: 00 PM	Data Analytics in Advanced Metering					

Day-3: 27-11-2019

Name of the Resource Person: Dr. Rabindra Kumar Sahu						
Time	Topics to be covered					
10:00 AM to 11: 30 AM	Introduction to Demand Response (DR)					
11:30 AM to 11:45 AM	Tea-Break					
11:45 AM to 1: 00 PM	Types of Demand Response Programs					
1: 00 PM to 2:00 PM	Lunch Break					
2:00 PM to 3:00 PM	Smart Appliances and Demand Response					
3: 00 PM to 3: 15PM	Tea-Break					
03:15 PM to 4: 00 PM	Case Studies on Successful Demand Response Implementations					

Day-4: 28-11-2019

Name of	Name of the Resource Person: Dr. Rabindra Kumar Sahu						
Time Topics to be covered							
10:00 AM to 11: 30 AM	Renewable Energy Sources and Their Integration						
11:30 AM to 11:45 AM	Tea-Break						
11:45 AM to 1: 00 PM	Smart Grids and Distributed Energy Resources (DERs)						
1: 00 PM to 2:00 PM	Lunch Break						
2:00 PM to 3:00 PM	Microgrids and their Role in Smart Grids						
3: 00 PM to 3: 15PM	Tea-Break						
03:15 PM to 4: 00 PM	Energy Storage Technologies for Smart Grids						

Day-5: 29-11-2019

Name of the Resource Person: Dr. Rabindra Kumar Sahu						
Time Topics to be covered						
10:00 AM to 11: 30 AM	Artificial Intelligence in Smart Grids					
11:30 AM to 11:45 AM	Tea-Break					
11:45 AM to 1: 00 PM	Blockchain Applications in Energy Sector					
1: 00 PM to 2:00 PM	Lunch Break					
2:00 PM to 3:00 PM	Industry 4.0 and Smart Grids					
3: 00 PM to 3: 15PM	Tea-Break					
03:15 PM to 4: 00 PM	Panel Discussion: Future Challenges and Opportunities in Smart Grid Technologies

A Five-Day FDP on smart grid technologies: advanced metering and demand response

25th to 29th Nov 2109

Organized by
Department of Electrical and
Electronics Engineering (E.E.E)

SRI SIVANI COLLEGE OF ENGINEERING

(Under the Management of Sri Sivani Educational Society, Srikakulam)
(Approved by AICTE, New Delhi and Permanently Affiliated to
JNTUK, Kakinada-CC-W6.

UGC Recognition under 2(f) & 12(B). ISO 9001:2008 Certified) NH-16. Chilakapalem Jn., Srikakulam Dist-532410

about the institution:

Sri Sivani College of Engineering (SSCE) is one of the colleges functioning under the Sri Sivani Educational Society. SSCE is a pioneer in the field of engineering education in Srikakulam district (A.P). It was established in the year 2006 under the affiliation of JNT University, Kakinada and approved by AICTE, New Delhi. The college is UGC Recognition under 2(f) & 12(B)certified by ISO 9001:2008.

SSCE is situated on a spacious II-acre campus adjacent to NH-16 at Chilkapalem village. The college is easily accessible to all the districts near Srikakulam.

SSCE offers B.Tech programmes in E.E.E, E.C.E, C.S.E, Mechanical and Civil Engineering, besides PG programmes M.C.A, M.B.A, M.Tech and Diploma programmes like E.E.E, Mechanical, and Civil Engineering as second shift.

SSCE is completely Wi-Fi enabled and equipped with well established laboratories. The college has focused towards student centric learning atmosphere. The faculty is well qualified, experienced equipped with state of art technologies and dedicated to produce marketable products.

About the Department:

The department is well-focused and student-centric with a clear vision. The Department of Electrical and Electronics Engineering is one of the oldest and major departments of the Institute. Since its inception in 2006, the department has been actively engaged in teaching and research in diverse fields of Electrical and Electronics Engineering. The department offers B.Tech in EEE with an intake of 120 students and M.Tech in Power Electronics with an intake of 18 students. The department is strong with a few faculty members holding Ph.D degrees and expertise in various fields. The department of EEE has adequate and wellqualified faculties spanning all major areas of Electrical Engineering like Power Systems, Power Electronics and Control Systems. Apart from regular academics, the department organizes department association activities to encourage and motivate the students to achieve their goals. The department also encourages students to participate in technical events organized by other universities and colleges.

Department Vision:

To be a Centre of Eminence in Electrical and Electronics

Lighteering to produce technically competent professionals.

Objective:

The objective of the program "Smart C Technologies: Advanced Metering and Demand Response" is to implement and optimize advanced metering systems and demand response strategies within the existing energy infrastructure to enhance grid efficiency, reliability, and sustainability. This program aims to leverage cutting-edge technologies to enable real-time monitoring, data analytics, and responsive energy management, thereby promoting energy conservation, reducing peak demand, and ensuring the effective integration of renewable energy sources into the grid.

Expected Outcomes:

Implement advanced metering systems to accurately monitor energy consumption and reduce distribution losses.

Employ demand response strategies to minimize peak load, leading to reduced strain on the grid during high-demand periods.

Facilitate the integration of renewable energy sources, reducing greenhouse gas emissions and promoting a cleaner energy mix.

Enable data-driven decision-making for energy providers and consumers, optimizing energy usage patterns.

Result in lower energy bills for consumers and reduced infrastructure costs for utilities through more efficient grid operations.

How To Apply:

The completed application form as per the formats given should reach the convener by 20-11-2019. A scanned copy of the filled-in form can also be mailed to eeessce@agmail.com. In case of delay, a filled-in copy can be submitted at the registration desk on the day of the workshop. Kindly confirm your presence to Sri. P. Asish Kumar.

PROGRAM REPORT

A Five Day Faculty Development Programme on "Smart Grid Technologies: Advanced Metering and Demand Response" has been successfully conducted from 25.11.2019 to 29.11.2019 (10 A.M. to 4 P.M.) at Seminar Hall of EEE Department, Sri Sivani College of Engineering.

The following members are invited as the Resource persons for the Faculty Development Programme

25.11.2019 to 26.11 2019

: Dr. G. T. Chandra Sekhar, Prof, Dept. of EEE

27.11 2019 to 29.11 2019

: Dr. Rabindra Kumar Sahu, Prof, HoD, Dept. of EEE

Veer Surendra Sai University of Technology, Odisha

Mr. P. Asish Kumar, Assst. Prof, Dept. of EEE is the co-ordinator of this program.

This FDP to equip educators in engineering colleges with the smart grid technologies and methodologies necessary to deliver effective and engaging instruction in Electrical and Electronics Engineering within the engineering curriculum. All of the attendees were quite impressed and inspired by the FDP. They exhibited their curiosity and acknowledged the significance of the FDP. They consider attending the FDP to be a practical learning opportunity for them. A total of Thirty Two (32) faculty members have participated in this program.

OBJECTIVES OF THE PROGRAM

The Main objectives of this FDP are

- To Provide participants with a comprehensive understanding of the key principles and fundamentals of smart grid technologies.
- Equip participants with in-depth knowledge of advanced metering systems, including the latest technologies and standards.
- Introduce participants to various demand response strategies and their significance in optimizing energy usage.
- Examine the latest technological innovations in smart grid systems, including IoT integration, data analytics, and machine learning applications.

Address the challenges associated with the deployment and maintenance of smart grid technologies, emphasizing practical solutions and best practices.

OUTCOMES OF THE PROGRAM

1. Enhanced Understanding of Smart Grid Concepts:

Participants will gain a thorough understanding of the fundamental principles and concepts related to smart grid technologies, enabling them to effectively teach and integrate these concepts into relevant courses.

2. Proficiency in Advanced Metering Systems:

 Participants will acquire proficiency in advanced metering systems, including the ability to explain the workings of these systems, interpret data generated by advanced meters, and evaluate their role in enhancing energy efficiency.

3. Expertise in Designing Demand Response Programs:

Participants will develop expertise in designing and implementing demand response programs,
 understanding various strategies and their applicability to different scenarios.

4. Awareness of Technological Innovations and Challenges:

 Participants will be aware of the latest technological innovations in smart grid technologies, such as IoT integration and data analytics, and will be equipped to address associated challenges in their teaching and research activities.

5. Application of Knowledge through Case Studies:

- Through the examination of real-world case studies, participants will be able to apply theoretical knowledge to practical scenarios, gaining insights into successful smart grid implementations and learning from challenges faced in the field.

PROGRAM REPORT

It is to inform that A Five day faculty development programme on "Thermal Systems Design and optimization" has been successfully conducted from 27.01.2020 to 31.01.2020 (10 A.M. to 4 P.M.) at seminar Hall of Mechanical Department, Sri Sivani College of Engineering.

The following members are invited as the Resource persons for the seminar.

27.01.2020 to 29.01.2020: Dr. P. Srihari, Associate .Prof, Dept. of Mechanical ,AITAM

29.01.2020 to 31.01.2020: Mr. S. Laxmanaraju, Asst.Prof, Dept. of Mechanical,SSCE,Chilakapalem jn

Co-ordinator: Sri. B. Sriramamurthy, Associate prof, Dept. of Mechanical,SSCE ,Chilakapalem jn

Two eminent Resource persons have expressed categorically the importance of **THERMAL SYSTEMS DESIGN AND OPTIMIZATION** All of the attendees were quite impressed and inspired by the seminar. They exhibited their curiosity and acknowledged the Seminar's significance. They consider that attending the Seminar is a practical learning opportunity for them.

OBJECTIVES OF THE PROGRAM

The Main objectives of Thermal systems is to keep the energy demand and supply in balance in different time frames. These systems are mainly used in industrial processes and buildings. in these applications about half of the energy is used in the form of thermal energy.

OUTCOMES OF THE PROGRAM

Thermal systems design and optimization main outcomes are to improve efficiency by reducing operational costs, enhancing performance, cost savings through low energy consumptions, reducing emissions and to extending equipment life.

Twenty Eight (28) Number faculty have participated in the program.

About the Institution:

Sri Sivani College of Engineering (SSCE) is one of the colleges functioning under Sri Sivani Educational Society. SSCE is a pioneer in the field of engineering education in Srikakulam district (A.P). It was established in the year 2006 under the affiliation of JNT University, Kakinada and approved by AICTE, New Delhi. The college is UGC Recognition under 2(f) & 12(B) certified by ISO 9001:2015 and accredited by NAAC.

SSCE is situated in a spacious 11 acres campus adjacent to NH-16 at chilkapalem village. The college is easily accessible to all the districts nearby Srikakulam.

SSCE offers B.Tech programmes in E.E.E, E.C.E, C.S.E, Mechanical and Civil Engineering, besides PG programmes M.B.A, M.Tech and Diploma programmes like E.E.E, Mechanical, and Civil Engineering as second shift.

SSCE is completely Wi-Fi enabled and equipped with well established laboratories. The college has focused towards student centric learning atmosphere. The faculty is well qualified, experienced equipped with state of art technologies and dedicated to produce marketable products.

About the Department:

The Department of Mechanical Engineering was established in the academic year 2009-10 with an annual intake of 120. Since its commencement, the primary objective of the department has been to impart quality education, training and research at the undergraduate levels in Mechanical Engineering with broad emphasis on design aspects of Machine design, The department also providing Diploma in Mechanical engineering with intake of 60. The Department has always been on a high growth path to keep pace with the ever increasing importance of the major disciplines of study and current technology trends. A judicious mix of experienced and young faculty with strong commitment to academics has created an ambience for learning.

Department Vision:

To be a Centre of Eminence in Mechanical Engineering to produce technically competent professionals.

Objective:

- 1. To understand the basics of Thermal systems Design.
- 2. To understand the future challenges in Thermal systems design and optimization.
- 3. To understand the Challenges to be faced in Optimization related practical problems.

Expected Outcomes:

- 1. Develop skill in understanding the Thermal system design related issues.
- 2. Ability to understand and utilize the Thermal systems basics with reference to optimization problems.

How To Apply:

Completed application form as per the formats given should reach the convener latest by 24-01-2020. A scanned copy of the filled in form can also be mailed to medept.w6@gmail.com. PROGRAM REPORT

A Five Day Faculty Development Program on "Pedagogy and Teaching Methodologies in Humanities and Basic Sciences" has been successfully conducted from 10.02.2020 to 14.02.2020 (10 A.M. to 4 P.M.) at Digital Hall of H&BS Department, Sri Sivani College of Engineering.

The following members are invited as the Resource persons for the Faculty Development Programme

10.02.2020 to 11.02.2020

: Sri. P. Someswara Rao, Lecturer, RGUKT, SKLM

12.02.2020 to 13.02.2020

: Sri. H. Seshagiri, Assistant Professor, Dr.B.R.A.U, Etcherla

14.02.2020

: Sri. K. Ganeswara Rao, Asst. Prof. of English, SSCE

Sri. K. Koti Babu, Department of H &Bs SSCE is the co-ordinator for this FDP.

This FDP to equip educators in engineering colleges with the pedagogical skills and methodologies necessary to deliver effective and engaging instruction in humanities and basic sciences within the engineering curriculum. All of the attendees were quite impressed and inspired by the FDP. They exhibited their curiosity and acknowledged the significance of the FDP. They consider attending the FDP to be a practical learning opportunity for them. 40 faculty members have participated in this program.

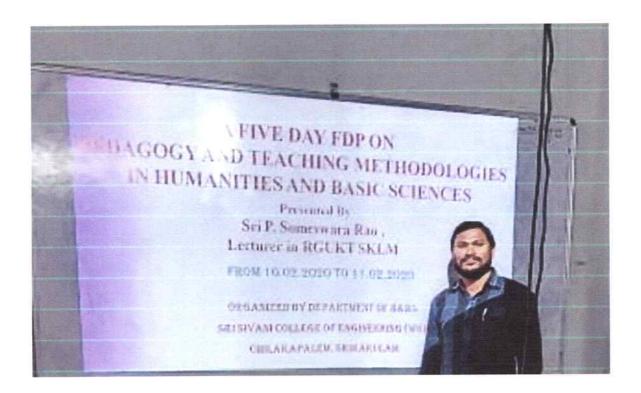

OBJECTIVES OF THE PROGRAM

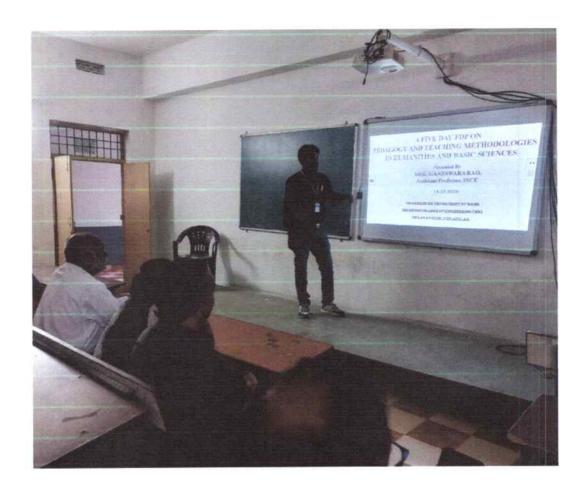

The Main objectives of this FDP are

- 1. To understand the philosophy of teaching and the role of a teacher
- 2. To develop effective teaching skills for attaining excellence in higher education
- 3. To enable them to develop suitable tools for evaluation
- 4. To enable the participants to communicate effectively in the classroom
- 5. To appreciate the relevance of active teaching methods for better student learning

OUTCOMES OF THE PROGRAM

- Improved Teaching Quality: Faculty members experienced an improvement in their teaching quality, leading to better student outcomes.
- Curriculum Development: The program may result in the development of a more dynamic and interdisciplinary curriculum that bridges the gap between engineering and humanities/basic sciences.
- Professional Growth: Faculty may experience professional growth and development as they incorporate new pedagogical skills into their teaching practice.
- Participants become proficient in integrating technology into their teaching, enhancing engagement and interaction in humanities and basic sciences classes.

Total No. of Participants: 40

About the Institution:

Sri Sivani College of Engineering (SSCE) is one of the colleges functioning under Sri Sivani Educational Society. SSCE is a pioneer in the field of engineering education in Srikakulam district (A.P). It was established in the year 2006 under the affiliation of JNT University, Kakinada and approved by AICTE, New Delhi. The college is UGC Recognition under 2(f) & 12(B) certified by ISO 9001:2008.

SSCE is situated in a spacious 11 acres campus adjacent to NH-16 at chilkapalem village. The college is easily accessible to all the districts nearby Srikakulam.

SSCE offers B.Tech programmes in E.E.E, E.C.E, C.S.E, Mechanical and Civil Engineering, besides PG programmes M.C.A, M.B.A, M.Tech and Diploma programmes like E.E.E, Mechanical, and Civil Engineering as second shift.

SSCE is completely Wi-Fi enabled and equipped with well established laboratories. The college has focused towards student centric learning atmosphere. The faculty is well qualified, experienced equipped with state of art technologies and dedicated to produce marketable products.

About the Department:

The Department of research and development, Sri Sivani College of Engineering was established in the year 2006. All through its sparkling history of 14 years. The department has always been on a progressive path, thanks to the experienced and dedicated faculty members who have a strong commitment towards providing quality engineering education.
