ABOUT THE INSTITUTION

Sri Sivani College of Engineering (SSCE) is one of the colleges functioning under Sri Sivani Educational Society, established in 2006 affiliated to JNTUGV, Vizianagaram. UGC Recognition under 2(f) & 12(B). ISO 9001:2015 Certified. SSCE is situated in a spacious 12 acres campus adjacent to NH-16 at Chilakapalem, Srikakulam, Andhra Pradesh.

SSCE offers B. Tech programs in Civil, C.S.E, E.E.E, E.C.E, Mechanical Engineering and PG programmes M.B.A, M.Tech and Diploma programmes for Civil, E.E.E and Mechanical Engineering. Fully connected through Fiber Optics and Wi-Fi Networks, Endowed with fully Qualified, well experienced and seasoned faculty members equipped with industrial experience and fully established laboratories with state-of-the-art technologies meets the growing needs of the students.

ABOUT THE DEPARTMENT

The Department of Electronics and Communications Engineering was established in the academic year 2006-07 with an annual intake of 60. Since its commencement, the primary objective of the department has been to impart quality education, training and research at the undergraduate levels in Electronics and Communication Engineering with broad emphasis on design aspects of electronic systems.

The intake was increased to 120 from the academic year 2008-09. Five batches of students have graduated so far. The Department is offering two M.Tech courses Digital Electronics & Communication Systems and VLSI (VLSI). The first PG program DECS (Digital Electronics and Communication Systems) was started in the year 2010. The rapid developments in the field of Electronics triggered the inception of another PG programme on VLSI in the year 2011.

The Department has sufficient spacious classrooms, well-equipped laboratories with an excellent infrastructure. The department has conducted many technical symposiums under the societies of IETE, ISTE and student association named MICROS (Minds of Innovative Communicative and Resplendent Organizing Society) and also has a close interaction with the alumni where their inputs are being used continuously for the improvement of curriculum.

Objectives of the program:

- To derive meaningful information from digital images, videos and other visual inputs
- To enable computing devices to correctly identify an object or person in a digital image
- Acquiring digital images(through image sensors),image processing, and image analysis to reach an understanding of digital images

Topics covered:

- Introduction about the image processing, image acquisition
- Image enhancement, image restoration, image segmentation, image representation, what is image analysis.

- Image synthesis and image compression, types of images.
- Explained about the types of computer vision
- Image segmentation, object detection, facial reorganization
- Edge detection, uses of computer vision such as medical diagnosis, security systems
- Difference between computer vision and AI
- Characteristics of computer vision
- Components of computer vision
- Explained about the basic types of machine vision system
- 1D vision systems, 2D vision systems, line scan and 3D system
- Advantages and the applications of computer vision

Outcome of the program:

- Recognize and describe how mathematical and scientific concepts applied in computer vision
- Identify and interpret appropriate sources of information relating to computer vision
- Student will gain knowledge on fundamental concepts of a image processing system.

Academic year: 2022-2023

Date: 22-10-2022

PROGRAM REPORT

Name of the Program: A Two-Week Add-On Program on “Web Designing and Office Automation”

Program Duration: 10-10-2022 to 21-10-2022

Details of the Resource Person: Mr. M.Murali Krishna, M.Tech
Associate Professor
Dept. of C.S.E.

Objectives of the program:

- Providing quality content on your website, regularly adding new information, establishing trust, and marketing your site on other websites and social media.
- website design goals and objectives allows you to stay focused. In other words, your website goals and objective should be the backbone of your website merchandise.

Topics covered:

- Fundamentals Of Computers
- GUI And CUI Based Operating System
- Office Automation And Assistive Technology
- Internet And Html
- Creating And Editing Document
- Storage Information And Storage Exchange

- Basics of Web Publishing
- Java Script Conditionals
- Java Script Scope
- Demonstrate The Use of CSS Box Model
- Create Dynamic Web Pages Using Java Script

Outcome of the program:

- The main aim of this course is to develop relevant skills in candidates related to computer application, office management practices, and office automation technique.
- Create and maintain quality web pages, learn about web design standards and why they're important, and learn to create and manipulate images.
- Demonstrate communication skills, service management skills, and presentation skills..
- Effectively manage website projects using available resources.

CIRCULAR

Here by informed to that the Department of Electrical and Electronics Engineering is planning to organize **A Two-week Add-On Program on “Advanced Simulation and Modeling Program”** from **10-10-2022** to **22-10-2022** for 3rd & 4th year EEE students. This program is designed to enhance their skills and knowledge in the field of simulation and modeling. We are offering a two-week Advanced Simulation and Modeling Program, designed to provide participants with a comprehensive understanding of advanced techniques and applications in this dynamic field. In this regard, I suggest 3rd & 4th year EEE students should enroll this program on or before **06-10-2022**.

Venue: Seminar Hall, Block – 1, SSCE.

About Institute

Sri Sivani College of Engineering (SSCE) is one of the colleges functioning under Sri Sivani Educational Society. SSCE is a pioneer in the field of engineering education in Srikakulam district (A.P). It was established in the year 2006 under the affiliation of JNT UGV, Vizianagaram and approved by AICTE, New Delhi. The college is UGC Recognition under 2(f) & 12(B) , ISO 9001:2015 Certified) SSCE is situated in a spacious 11 acres campus adjacent to NH-16 at chilkapalem village. The college is easily accessible to all the districts nearby Srikakulam. SSCE offers B.Tech programmes in E.E.E, E.C.E, C.S.E, Mechanical and Civil Engineering, besides PG programmes M.C.A, M.B.A, M.Tech and Diploma programmes like E.E.E, Mechanical, and Civil Engineering as second shift. SSCE is completely Wi-Fi enabled and equipped with well established laboratories. The college has focused towards student centric learning atmosphere. The faculty is well qualified, experienced equipped with state of art technologies and dedicated to produce marketable products.

About Department

The department is well focused and student centric with clear vision. The department of Electrical and Electronics Engineering is one of the oldest and major departments of the Institute. Since its inception in 2006, the department has been actively engaged in teaching and research in diverse fields of Electrical and Electronics Engineering. The department offers B.Tech in EEE with an intake of 30 students and M.Tech in Power Electronics with an intake of 12 students. The department is strong with a few faculty members holding Ph.D degrees and expertise in various fields. The department of EEE has adequate and well-qualified faculties spanning all major areas of Electrical Engineering like Power Systems, Power Electronics and Control Systems. Apart from regular academics, department organizes department association activities to encourage and motivate the students to achieve their goals. Department also encourages the students to participate in technical events organized by other universities and colleges.

PROGRAM REPORT

Name of the program	: A Two-Week Add-On Program on “Advanced Simulation and Modeling Program”
Program Duration	: 10-10-2022 to 22-10-2022
Details of Resource Persons	: 1. Dr. S. Ramana Kumar Joga Assistant Professor Dadi Institute of engineering and Technology srkjoga@diet.edu.in +91 94902 65958 2. Mr. I. Sai Rajesh Kumar, M.Tech Assistant Professor, Dept. of EEE, Sri Sivani College of Engineering sairajeshkumar03@gmail.com 8897339445
Details of Program coordinator	: Ms. M. Sai Sudha, M.Tech, Assistant Professor, Dept. of EEE, Sri Sivani College of Engineering majjisaisudha@gmail.com 8500447055

Objectives of the program:

- To provide students with a comprehensive understanding of advanced simulation and modeling techniques and their applications across various domains.

- To equip students with the practical skills necessary to develop and optimize complex simulation models.
- To enhance students' ability to use simulation and modeling as decision-making tools for solving real-world problems.
- To explore the versatility of simulation and modeling in fields such as finance, healthcare, logistics, and more.
- To facilitate networking and collaboration among participants and experts in the field.

Topics covered:

1. Introduction to Simulation and Modeling
2. Probability and Statistics in Simulation
3. Monte Carlo Simulation
4. Discrete Event Simulation
5. Agent-Based Modeling
6. Advanced Topics and Applications

Outcomes of the program:

At the ending of the program the students will be able to

- Develop and implement advanced simulation models, including Monte Carlo simulations, discrete event simulations, and agent-based models.
- Optimize simulations and interpret results to make informed decisions.
- Apply simulation and modeling techniques to address complex real-world problems in various industries.
- Design and conduct experiments using simulation models to improve processes and systems.
- Collaborate with peers and experts to exchange ideas and best practices in simulation and modeling.

CIRCULAR

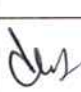

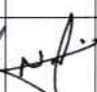

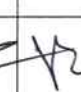

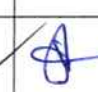

Here by informed that, the Department of Electrical and Electronics Engineering is planning to organize **A Two-week Add-On Program on "ON Grid & OFF Grid Solar Power Generation"** from **14-11-2022** to **26-11-2022** for 2nd year EEE students. This program is designed to enhance your skills and expand your knowledge of its applications. In this regard, I suggest all 2nd year EEE students should enroll this program on or before **11-11-2022**.

Venue:Seminar Hall, Block – 1, SSCE.

About Institute

Sri Sivani College of Engineering (SSCE) is one of the colleges functioning under Sri Sivani Educational Society. SSCE is a pioneer in the field of engineering education in Srikakulam district (A.P). It was established in the year 2006 under the affiliation of JNT UGV, Vizianagaram and approved by AICTE, New Delhi. The college is UGC Recognition under 2(f) & 12(B), ISO 9001:2015 Certified) SSCE is situated in a spacious 11 acres campus adjacent to NH-16 at chilkapalem village. The college is easily accessible to all the districts nearby Srikakulam. SSCE offers B.Tech programmes in E.E.E, E.C.E, C.S.E, Mechanical and Civil Engineering, besides PG programmes M.C.A, M.B.A, M.Tech and Diploma programmes like E.E.E, Mechanical, and Civil Engineering as second shift. SSCE is completely Wi-Fi enabled and equipped with well established laboratories. The college has focused towards student centric learning atmosphere. The faculty is well qualified, experienced equipped with state of art technologies and dedicated to produce marketable products.

About Department

The department is well focused and student centric with clear vision. The department of Electrical and Electronics Engineering is one of the oldest and major departments of the Institute. Since its inception in 2006, the department has been actively engaged in teaching and research in diverse fields of Electrical and Electronics Engineering. The department offers B.Tech in EEE with an intake of 30 students and M.Tech in Power Electronics with an intake of 12 students. The department is strong with a few faculty members holding Ph.D degrees and expertise in various fields. The department of EEE has adequate and well-qualified faculties spanning all major areas of Electrical Engineering like Power Systems, Power Electronics and Control Systems. Apart from regular academics, department organizes department association activities to encourage and motivate the students to achieve their goals. Department also encourages the students to participate in technical events organized by other universities and colleges.

ON GRID SOLAR POWER SYSTEM

Objectives

- To provide participants with a comprehensive understanding of on-grid and off-grid solar power systems.
- To familiarize participants with the components, working principles, and design considerations of both on-grid and off-grid solar systems.
- To equip participants with the knowledge to assess the feasibility and benefits of integrating solar power generation into various applications.
- To enable participants to understand the regulatory and policy frameworks related to solar power generation and integration into the grid.
- To empower participants with practical skills to design, install, and maintain on-grid and off-grid solar power systems.

Program Schedule

- Introduction to Solar Power Generation
- Components of Solar Power Systems
- Design Considerations for On-Grid Systems
- Design Considerations for Off-Grid Systems
- Feasibility Analysis and Economic Considerations
- Installation and Maintenance

Objectives of the program:

- To provide participants with a comprehensive understanding of on-grid and off-grid solar power systems.
- To familiarize participants with the components, working principles, and design considerations of both on-grid and off-grid solar systems.
- To equip participants with the knowledge to assess the feasibility and benefits of integrating solar power generation into various applications.
- To enable participants to understand the regulatory and policy frameworks related to solar power generation and integration into the grid.
- To empower participants with practical skills to design, install, and maintain on-grid and off-grid solar power systems.

Topics covered:

- Introduction to solar power generation.
- Components of solar power generation.
- Design considerations for On-Grid systems.
- Design considerations for Off-Grid systems.
- Feasibility analysis and economic considerations.
- Installation and maintenance.
- Regulations, policies, and future trends

Outcomes of the program:

At the ending of the program the students will be able to

- Differentiate between on-grid and off-grid solar power systems and explain their advantages and disadvantages.
- Identify the key components of solar power systems, including solar panels, inverters, batteries, and charge controllers.
- Analyze energy consumption patterns and solar resource availability to determine the appropriate system size and configuration for specific applications.

- Evaluate the economic and environmental benefits of solar power integration, considering factors like payback period, return on investment, and carbon footprint reduction.
- Interpret relevant regulations, policies, and incentives related to solar power generation and grid connection.
- Plan and design on-grid and off-grid solar power systems, considering factors such as load requirements, site conditions, and safety considerations.
- Demonstrate practical skills in installing solar panels, configuring inverters, and setting up battery storage for both on-grid and off-grid systems.
- Troubleshoot common issues in solar power systems and perform basic maintenance to ensure optimal performance

CIRCULAR

This is to inform that the Department of Computer Science Engineering is organizing **A Two Week Add-On Program on “Web Development Using DJANGO”** during **05-12-2022 to 17-12-2022** to the 1st and 2nd year CSE, ECE and EEE M.Tech students to enhance their skills applicable for job opportunities. Built by experienced developers, DJANGO takes care of much of the hassle of web development, so you can focus on writing your app without needing to reinvent the wheel. In this regard, I suggest all the students to enroll for this course on or before 30 November 2022.

Venue : VLSI Lab, Block – 2, SSCE.

ABOUT THE INSTITUTION

Sri Sivani College of Engineering (SSCE) is one of the colleges functioning under Sri Sivani Educational Society, established in 2006 affiliated to JNTUGV, Vizianagaram. UGC Recognition under 2(f) & 12(B). ISO 9001:2015 Certified. SSCE is situated in a spacious 12 acres campus adjacent to NH-16 at Chilakapalem, Srikakulam, Andhra Pradesh. SSCE offers B. Tech programs in Civil, C.S.E, E.E.E, E.C.E, Mechanical Engineering and PG programmes M.B.A, M.Tech and Diploma programmes for Civil, E.E.E and Mechanical Engineering. Fully connected through Fiber Optics and Wi-Fi Networks. Endowed with fully Qualified, well experienced and seasoned faculty members equipped with industrial experience and fully established laboratories with state-of-the-art technologies meets the growing needs of the students.

ABOUT THE DEPARTMENT

The Department of Computer Science Engineering of Sri Sivani College of Engineering was established in the year 2006 and playing a vital role in designing, developing maintaining software and hardware for the entire college. It has been offering full time B. Tech (CSE), M. Tech (CSE) courses. The Department has been advancing at a rapid pace with the acquisition of advanced facilities and dedicated teaching faculty to properly motivate and mould the students for a better and prospective tomorrow. The Department is adequately equipped with several full fledged computer laboratories and research groups in order to enhance R & D and consultancy. CSE Department Laboratories are well equipped with Dual Core clients running on Windows and Fedora Operating Servers, Oracle Servers and Xeon servers with all licensed software's. The systems are connected through 100/1000 Mbps CAT 5 UTP cabling and fiber connectivity, high-end routers and switches of 40Mbps internet facility with LAN and Wi-Fi. The laboratories are established with an objective to promote practical knowledge in latest cutting-edge technologies, research and consultancy work.

Objectives of the program:

This course, students will learn about the most advanced Web-app development environments with immense exposure on practicality.

The course is designed for an aspiring developer to enrich the knowledge of different Web based Python Frameworks.

In this curriculum, we have covered Python fundamentals including OOPS concepts.

The course has been designed in such a way that a candidate can handle both the Frontend and Back-end development processes. My SQL is also covered to connect our application with the Database.

ABOUT THE INSTITUTION

Sri Sivani College of Engineering (SSCE) is one of the colleges functioning under Sri Sivani Educational Society. SSCE is a pioneer in the field of engineering education in Srikakulam district (A.P). It was established in the year 2006 under the affiliation of JNTUGV, Vizianagaram and approved by AICTE, New Delhi. The college is UGC Recognition under 2(f) & 12(B), ISO 9001:2015 Certified) SSCE is situated in a spacious 11 acres campus adjacent to NH-16 at Chilkapalem village. The college is easily accessible to all the districts nearby Srikakulam. SSCE offers B.Tech programmes in E.E.E, E.C.E, C.S.E, Mechanical and Civil Engineering, besides PG programmes M.C.A, M.B.A, M.Tech and Diploma programmes like E.E.E, Mechanical, and Civil Engineering as second shift. SSCE is completely Wi-Fi enabled and equipped with well established laboratories. The college has focused towards student centric learning atmosphere. The faculty is well qualified, experienced equipped with state of art technologies and dedicated to produce marketable products.

ABOUT THE DEPARTMENT

The Department of Humanities and Basic Sciences, Sri Sivani College of Engineering was established in the year 2006. The department has always been on a progressive path, thanks to the experienced and dedicated faculty members who have a strong commitment towards providing quality engineering education.

Objectives of the program:

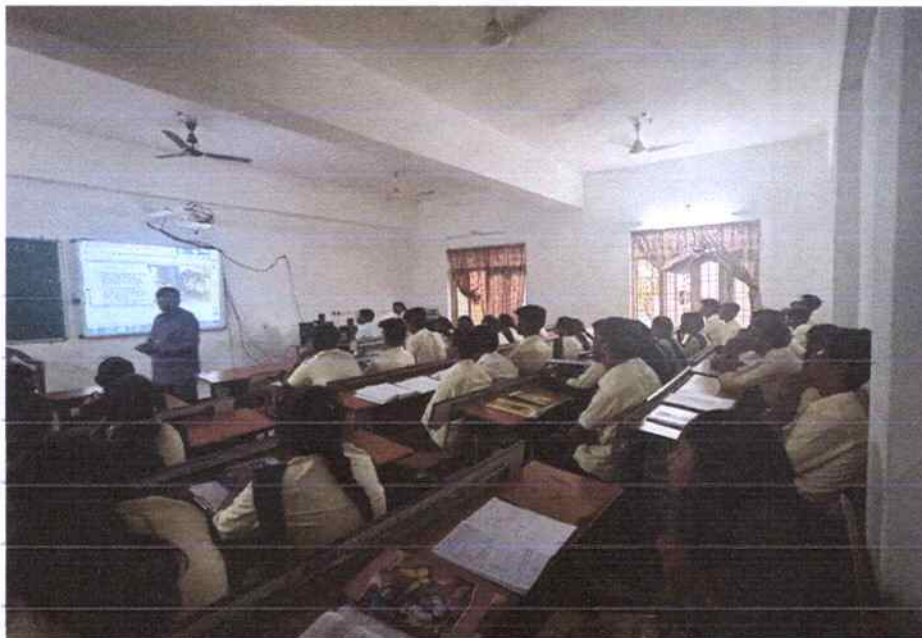

- Describing the chemical reaction of combustion
- Listing the necessary components for combustion to occur
- Using word and simple symbol equations to explain combustion reactions
- Explaining the difference between complete and incomplete combustion
- Giving examples of fuels and explaining their purposes
- Discovering both the pros and cons for using sources of energy
- Defining terms that relate to fossil fuels

Topics covered:

1. Classifications of fuels.
2. Characteristics of good fuel.
3. Unit of heat.

4. Calorific Value.
5. Gross Calorific value.
6. Net Calorific value.
7. Determination of Calorific value.
8. Analysis of coal.
9. Ultimate analysis.
10. Proximate analysis.
11. Biogas.

Outcomes of the program:

On completion of the course, student should be able to:

1. Understand the environmental impact of burning fuels and the use of alternative fuels as energy sources.

Number of participants : 110

About the Institution

Sri Sivani College of Engineering was established in the year 2006 by the highly motivated and philanthropic personalities well noted in the Srikakulam district for their commitment and concern for upliftment of education. The College recognizes the vital need to produce competent engineering professionals and techno managerial professionals for the development of country. It is spread over 11.10 acres of land, with picturesque landscape providing calm learning atmosphere. The campus is eco-friendly and an ideal location for studies. The institution is established as a co-educational institution and affiliated to JNTUGV, Vizianagaram.

The Management believes in the three principles for the success of true education based on discipline, dedication and commitment. Here the environment is free from all limitations and tensions. The institution aims at achieving excellence in engineering education, not only at basic level but also at advanced levels. Sri Sivani is the abode where the experienced faculty with their broader vision set their goals to fulfill the dreams of the students with better employability skills. Campus recruitments are often conducted by inviting renowned companies. Healthy atmosphere pervades within and outside the campus. Competitive spirit is encouraged among the students. Every year students are presented with meritorious awards and gold medals based on their performance.

CIRCULAR

This is to inform that the Department of Mechanical Engineering is organizing A **Two Week Add-on Program on "Drone technology"** from **6/2/2023 to 17/2/2023**. This program focuses on operation of a Drone and its key parts, Design and construction, Understanding dynamics, remote control, and navigation etc. Emphasizing safety protocols and legal compliance, Discovering how drones are used in industries, from agriculture to surveillance. In this regard, I suggest all 2nd year mechanical students to enroll this course on or before 1/2/2023.

ABOUT THE INSTITUTION

Sri Sivani College of Engineering (SSCE) is one of the colleges functioning under Sri Sivani Educational Society, established in 2006 affiliated to JNTUGV, Vizianagaram, UGC Recognition under 2(f) & 12(B), ISO 9001:2015 Certified. SSCE is situated in a spacious 12 acres campus adjacent to NH-16 at Chilakapalem, Srikakulam, Andhra Pradesh.

SSCE offers B. Tech programs in Civil, C.S.E, E.E.E, E.C.E, Mechanical Engineering and PG programmes M.B.A, M.Tech and Diploma programmes for Civil, E.E.E and Mechanical Engineering. Fully connected through Fiber Optics and Wi-Fi Networks. Endowed with fully Qualified, well experienced and seasoned faculty members equipped with industrial experience and fully established laboratories with state-of-the-art technologies meets the growing needs of the students.

ABOUT THE DEPARTMENT

SSCE started Mechanical Engineering programme in 2009. The Faculty in the department are in the track of excellence in terms of qualification and experience. Coming from various reputed universities, industries and research oriented organizations, faculty are committed to the noble cause of teaching learning process synchronizing with their efforts. It gives facilities to train in analytical, simulation, design and development and experimental techniques in the Capstone Project. Our department students are developing good research skills, technical and managerial skills which help them to become good technocrats in the society. The laboratories under various domains are fully equipped with up to date experimental facilities and machineries to train our students and to conduct research. Its got trained in Solid Edge design laboratory, AutoCAD, and ANSYS software. They are also trained in characterizing the microstructure of materials using optical microscope interfaced with image analyzer, hardness tester after making heat treatment such as quenching and tempering, induction hardening and normalizing. These kinds of laboratory trainings are very essential to work in various industries. The departmental project allows students to develop innovative concepts such as robot, automated cars and solar powered equipments and alternate fuel development etc.

DEPARTMENT OF MECHANICAL ENGINEERING

ABOUT THE PROGRAM

We are excited to introduce our "Drone Technology" add-on program, thoughtfully tailored for the students of the Mechanical Engineering Department.

Drones have become integral to various industries, and this program aims to equip our students with the knowledge and practical skills required to excel in this exciting field.

PROGRAM CONTENT

Drone Fundamentals: Exploring the history, types and components of drones.

Design and Construction: Learning the principles of drone design and building a drone from scratch.

Flight Principles: Understanding aerodynamics, remote control, and navigation.

Safety and Regulations: Emphasizing safety protocols and legal compliance.

Applications:- Discovering how drones are used in industries, from agriculture to surveillance

Academic Year: 2022 – 2023

Date: 24/02/2023

PROGRAM REPORT

Name of the Program	:A Two week Add-on Program on Drone technology
Program Duration	: Two weeks (6/2/2023 to 17/2/2023, 11days)
Resource Person Details	: Dr. Y. SrinivasaRao, M.Tech, PhD. Principal, Mechanical Engg. Department Sri Sivani College of Engineering,
Program Coordinator Details	: Mr.M.Sai Krishna, M.Tech Asst. Professor, Mechanical Department Sri Sivani College of Engineering, Srikakulam Contact number: 7981244957.
Program Venue	: Seminar hall, SSCE Block-1

Program Objectives:

- To familiarize students with drone technology,
- To familiarize drone applications.
- To familiarize drones impact on various industries.
- To prepare students for opportunities in the growing field of drones and unmanned aerial vehicles.

Topics Covered:-

1. Introduction to Drone Technology
2. Types of Drones and Their Applications
3. Drone Components and Systems
4. Drone Aerodynamics and Flight Mechanics
5. Remote Sensing with Drones
6. Drone Navigation and Control
7. Drone Sensors and Imaging Technologies

8. Drone Data Acquisition and Processing
9. Regulatory Framework for Drones
10. Safety and Security in Drone Operations
11. Drones in Agriculture and Crop Monitoring
12. Drones in Search and Rescue Operations
13. Surveillance and Monitoring with Drones
14. Drone Swarms and Cooperative Control
15. Case Studies in Industrial Drone Applications
16. Emerging Technologies in Drone Industry
17. Environmental Monitoring with Drones
18. Drones in Construction and Infrastructure
19. Drone-based Delivery Systems
20. Future Developments in Drone Technology

Program Outcomes:

Upon completion of this course the student will be able to:

- Recognize the significance of drone technology in a variety of applications.
- Explore Drone Design and Construction.
- Understand Drone Flight Principles
- Adhere to Drone Safety and Regulations
- Examine Drone Imaging and Sensing
- Analyze Drone Applications
- Gain insights into career opportunities and advancements in the drone industry.

CIRCULAR

This is to inform that the Department of Electronics & Communication Engineering is organizing **A Two Week Add-On Program on "VSAT-Principals of Satellite Communication"** during **13-02-2023 TO 25-02-2023** to the 2nd year ECE students to enhance their skills applicable for job opportunities. VSAT stands for Very Small Aperture Terminal. VSAT is of importance, especially in remote areas such as the hilly mountain regions, where Internet connectivity cannot be directly provided. There is no option left in such places through which the Internet can be accessed anyway In this regard, I suggest all the students to enroll for this course on or before 9th February 2023.

Venue: VLSI Lab, Block – 2, SSCE.

ABOUT THE INSTITUTION

Sri Sivani College of Engineering (SSCE) is one of the colleges functioning under Sri Sivani Educational Society, established in 2006 affiliated to JNTUGV, Vizianagaram. UGC Recognition under 2(f) & 12(B), ISO 9001:2015 Certified. SSCE is situated in a spacious 12 acres campus adjacent to NH-16 at Chilakapalem, Srikakulam, Andhra Pradesh. SSCE offers B. Tech programs in Civil, C.S.E, E.E.E, E.C.E, Mechanical Engineering and PG programmes M.B.A, M.Tech and Diploma programmes for Civil, E.E.E and Mechanical Engineering. Fully connected through Fiber Optics and Wi-Fi Networks. Endowed with fully Qualified, well experienced and seasoned faculty members equipped with industrial experience and fully established laboratories with state-of-the-art technologies meets the growing needs of the students.

ABOUT THE DEPARTMENT

The Department of Electronics and Communications Engineering was established in the academic year 2006-07 with an annual intake of 60. Since its commencement, the primary objective of the department has been to impart quality education, training and research at the undergraduate levels in Electronics and Communication Engineering with broad emphasis on design aspects of electronic systems.

The intake was increased to 120 from the academic year 2008-09. Five batches of students have graduated so far. The Department is offering two M.Tech courses Digital Electronics & Communication Systems and VLSI (VLSI). The first PG program DECS (Digital Electronics and Communication Systems) was started in the year 2010. The rapid developments in the field of Electronics triggered the inception of another PG programme on VLSI in the year 2011.

The Department has sufficient spacious classrooms, well-equipped laboratories with an excellent infrastructure. The department has conducted many technical symposiums under the societies of IETE, ISTE and student association named MICROS (Minds of Innovative Communicative and Resplendent Organizing Society) and also has a close interaction with the alumni where their inputs are being used continuously for the improvement of curriculum.

SRI SIVANI COLLEGE OF ENGINEERING

A Two-Week Add-On Program
on "VSAT-Principals of
Satellite Communication"

13-02-2023 to 25 -02-2023

ORGANIZED BY
DEPARTMENT OF ELECTRONICS AND
COMMUNICATION ENGINEERING

Objectives of the program:

VSAT stands for Very Small Aperture Terminal. VSAT is of importance, especially in remote areas such as the hilly mountain regions, where Internet connectivity cannot be directly provided. There is no option left in such places through which the Internet can be accessed anyway. These places could be the Ocean region and the Sea region, where the citizens have a lack of utilities. In such cases, VSAT is one of the technologies that make Internet Connectivity possible so that people can access it. All the work is carried out in a workstation group where the sending and receiving of signals takes place. The data such as audio, video, etc. can be sent and received. Therefore, VSAT is considered to be a private Earth Station. This Earth Station is designed in a way such that the signals are transmitted and received with the help of satellites.

PROGRAM REPORT

Name of the Program : A Two Week Add-On Program on VSAT-Principals
of Satellite Communication

Program Duration : 13-02-2023 TO 25-02-2023

Objectives of the program:

- A very small aperture terminal (VSAT) is a data transmission technology used for many types of data management and in high-frequency trading.
- VSAT can be used in place of a large physical network as it bounces the signal from satellites instead of being transported through physical means like an ethernet connection.
- Because the signal needs to bounce, there can be a latency issue that wouldn't exist with a physical network. However, most users feel this is the price you pay for remote access and less infrastructure and consider it a fair trade.
- Weather can adversely impact the efficacy of a VSAT network.

Topics covered:

- V-SAT Introduction
- V-SAT Hub
- FDMA, TDMA, CDMA
- Different Access Methods Used In VSAT Communication
- Coding and modulation
- VSATs in the Indian context
- Typical V-SAT Installation
- Communication Satellite: Orbit and Description
- Satellite Sub-Systems

- Propagation Effects
- Earth Station Technology
- Satellite Packet Communications

Outcomes of the program:

- A very small aperture terminal (VSAT) is a small-sized earth station used in the transmit/receive of data, voice and video signals over a satellite communication network, excluding broadcast television.
- A VSAT consists of two parts: a transceiver placed outdoors in direct line of sight to the satellite, and a device that is placed indoors to interface the transceiver with the end user's communications device, such as a PC.
- The transceiver receives or sends a signal to a satellite transponder in the sky. The satellite sends and receives signals from a ground station computer that acts as a hub for the system.

CIRCULAR

Here by informed to all the students of MBA, that the Department of Management Studies is planning to organize **A Two-week Add-On Program on "Mergers and Takeover"** from **13-03-2023 to 25-03-2023**. This program is aimed at enhancing your skills and knowledge in the field of Mergers and takeover it involves merging of two or more companies, also it involves one large company how it takeover a small company. In this regard, I suggest all the 1st and 2nd year MBA students to enroll this program on or before **03-03-2023**.

Venue: MBA Class Room, Block – 3, SSCE.

About the Institution

Sri Sivani College of Engineering was established in the year 2006 by the highly motivated and philanthropic personalities well noted in the Srikakulam district for their commitment and concern for upliftment of education. The College recognizes the vital need to produce competent engineering professionals and techno managerial professionals for the development of country. It is spread over 11.10 acres of land, with picturesque landscape providing calm learning atmosphere. The campus is eco-friendly and an ideal location for studies. The institution is established as a co-educational institution and affiliated to JNTUGV, Vizianagaram.

The Management believes in the three principles for the success of true education based on discipline, dedication and commitment. Here the environment is free from all limitations and tensions. The institution aims at achieving excellence in engineering education, not only at basic level but also at advanced levels. Sri Sivani is the abode where the experienced faculty with their broader vision set their goals to fulfill the dreams of the students with better employability skills. Campus recruitments are often conducted by inviting renowned companies. Healthy atmosphere pervades within and outside the campus. Competitive spirit is encouraged among the students. Every year students are presented with meritorious awards and gold medals based on their performance.

CIRCULAR

The Department of Civil Engineering is happy to announce about conducting A Two-Week Add-On program on **Construction Planning using Primavera P6** for the benefit of final year Civil Students. This program is schedule from **27-03-2023 to 06-04-2023** in the Central Computing Lab, Block I. Primavera is a project management tool useful for Civil Engineers with resource management, risk reduction and corporate growth projection. I do inform all the final year civil students to register this program on or before 25-03-2023 and gain practical knowledge which will be helpful to you in the quest of job.

Venue: Central Computing Lab, Block – 1, SSCE.

About the Institution

Sri Sivani College of Engineering was established in the year 2006 by the highly motivated and philanthropic personalities well noted in the Srikakulam district for their commitment and concern for upliftment of education. The College recognizes the vital need to produce competent engineering professionals and techno managerial professionals for the development of country. It is spread over 11.10 acres of land, with picturesque landscape providing calm learning atmosphere. The campus is eco-friendly and an ideal location for studies. The institution is established as a co-educational institution and permanently affiliated to JNTUK, Kakinada.

The Management believes in the three principles for the success of true education based on discipline, dedication and commitment. Here the environment is free from all limitations and tensions. The institution aims at achieving excellence in engineering education, not only at basic level but also at advanced levels. Sri Sivani is the abode where the experienced faculty with their broader vision set their goals to fulfill the dreams of the students with better employability skills. Campus recruitments are often conducted by inviting renowned companies. Healthy atmosphere pervades within and outside the campus. Competitive spirit is encouraged among the students. Every year students are presented with meritorious awards and gold medals based on their performance.

About the Department

The Department of Civil Engineering in Sri Sivani College of Engineering was established in the year 2009 offering full time B. Tech (Civil). The Department has been advancing at a rapid pace with acquisition of advanced facilities, R&D, and dedicated teaching Faculty to properly motivate and mould the students for a better and prospective tomorrow. The strength of the department exists in the Physical Laboratories:

1. Surveying Field Work
2. Geotechnical Engg
3. Hydraulics
4. Strength of Materials
5. Concrete Technology
6. Environmental Engg
7. Engineering Geology
8. CAD / STAAD Pro

ABOUT THE INSTITUTION

Sri Sivani College of Engineering (SSCE) is one of the colleges functioning under Sri Sivani Educational Society, established in 2006 affiliated to JNTUGV, Vizianagaram-CC-W6 UGC Recognition under 2(f) & 12(B). ISO 9001:2015 Certified. SSCE is situated in a spacious 12 acres campus adjacent to NH-16 at Chilakapalem, Srikakulam, Andhra Pradesh. SSCE offers B. Tech programs in Civil, C.S.E, E.E.E, E.C.E, Mechanical Engineering and PG programmes M.B.A, M.Tech and Diploma programmes for Civil, E.E.E and Mechanical Engineering. Fully connected through Fiber Optics and Wi-Fi Networks, Endowed .

ABOUT THE DEPARTMENT

The Department of Computer Science & Engineering of Sri Sivani College of Engineering was established in the year 2006 and playing a vital role in designing, developing maintaining software and hardware for the entire college. It has been offering full time B. Tech (CSE), M.Tech (CSE) courses.

The Department has been advancing at a rapid pace with the acquisition of advanced facilities and dedicated teaching faculty to properly motivate and mould the students for a better and prospective tomorrow. The Department is adequately equipped with several full fledged computer laboratories and research groups in order to enhance R & D and consult.

Academic year: 2022-2023

Date: 10-04-2023

PROGRAM REPORT

Name of the Program: A Two-Week Add-On Program on “Game Design Using Unity 3D”

Program Duration: 27-03-2023 to 06-04-2023

Details of the Resource Person: Mr. N. Sai Kiran, M. Tech
Assistant Professor

Objectives of the program:

- Cross-Platform Compatibility: One of the biggest advantages of Unity is its unparalleled cross-platform compatibility.
- Robust and Intuitive Development Environment.
- Powerful Performance Optimization.
- Active Community and Support.

Topics covered:

- Downloading Unity and Unity Hub
- About Unity Versions and Creating a New Project
- Introduction to Unity's Interface
- Starting with Unity's Basics
- Audio Source and Ui Elements
- Moving Our Character with Code

- Introduction to Variables
- Operations with Variables
- Functions, Conditional Statements
- Loops, Coroutines, Classes, Inheritance
- Accessibility Modifiers(Data Encapsulation)

Outcome of the program:

- This heightened sense of immersion enhances the overall gaming experience.
- 3D games offer a higher level of realism and immersion by simulating three-dimensional spaces, enabling players to explore lifelike environments and characters.
- 3D design refers to using software to create a digital model of a three-dimensional shape or object.
- Organizations and professionals across industries use 3D design to communicate ideas, create products and customer experiences, teach concepts, and more.

CIRCULAR

This is to inform that the Department of Mechanical Engineering is organizing A Two Week Add-on Program on “4th industrial revolution using Industry 4.0” from 3/4/2023 to 15/4/2023. This program allows learners to explore the Fundamentals of Industry 4.0, Industry 4.0 in Manufacturing, Data-Driven Decision Making, Supply Chain Resilience. In this regard, I suggest all 3rd and 4th year mechanical students to enroll this course on or before 3/04/2023.

ABOUT THE INSTITUTION

Sri Sivani College of Engineering (SSCE) is one of the colleges functioning under Sri Sivani Educational Society, established in 2006 affiliated to JNTUGV, Vizianagaram. UGC Recognition under 2(f) & 12(B). ISO 9001:2015 Certified. SSCE is situated in a spacious 12 acres campus adjacent to NH-16 at Chilakapalem, Srikakulam, Andhra Pradesh.

SSCE offers B. Tech programs in Civil, C.S.E, E.E.E, E.C.E, Mechanical Engineering and PG programmes M.B.A. M.Tech and Diploma programmes for Civil, E.E.E and Mechanical Engineering. Fully connected through Fiber Optics and Wi-Fi Networks. Endowed with fully Qualified, well experienced and seasoned faculty members equipped with industrial experience and fully established laboratories with state-of-the-art technologies meets the growing needs of the students.

ABOUT THE DEPARTMENT

SSCE started Mechanical Engineering programme in 2009. The Faculty in the department are in the track of excellence in terms of qualification and experience. Coming from various reputed universities, industries and research oriented organizations, faculty are committed to the noble cause of teaching learning process synchronizing with their efforts. It gives facilities to train in analytical, simulation, design and development and experimental techniques in the Capstone Project. Our department students are developing good research skills, technical and managerial skills which help them to become good technocrats in the society. The laboratories under various domains are fully equipped with up to date experimental facilities and machineries to train our students and to conduct research. Its got trained in Solid Edge design laboratory, AutoCAD, and ANSYS software. They are also trained in characterizing the microstructure of materials using optical microscope interfaced with image analyzer, hardness tester after making heat treatment such as quenching and tempering, induction hardening and normalizing. These kinds of laboratory trainings are very essential to work in various industries. The departmental project allows students to develop innovative concepts such as robot, automated cars and solar powered equipments and alternate fuel development etc.

3/4/2023 to 15/4/2023

ORGANIZED BY

DEPARTMENT OF MECHANICAL
ENGINEERING

Objective of the Program

The "4th Industrial Revolution using Industry 4.0" add-on program is designed to immerse students in the transformative technologies and methodologies associated with Industry 4.0. The objective is to equip students with a profound understanding of the fourth industrial revolution, fostering the development of skills necessary for a future where smart technologies, data analytics, and automation reshape industries.

PROGRAM CONTENT

- **Fundamentals of Industry 4.0:**
A deep dive into the core concepts of Industry 4.0, including IoT, AI, and robotics
- **Industry 4.0 in Manufacturing:**
Exploration of smart factories, automation, and digital twins in manufacturing
- **Data-Driven Decision Making:**
How data analytics and AI are transforming decision-making processes
- **Supply Chain Resilienc:**
Insights into building resilient supply chains using Industry 4.0 technologies.
- **Case Studies and Best Practices:**
Learning from industry case studies and best practices for successful implementation.

Program Objectives:

- to introduce students to the concepts and technologies associated with the fourth industrial revolution.
- to prepare students for the changing landscape of industry by equipping them with knowledge and skills related to automation, Internet of Things, and data-driven decision-making.
- Analyze successful case studies and best practices in the context of Industry 4.0 adoption

Topics Covered:-

1. Introduction to Industry 4.0
2. Cyber-Physical Systems (CPS)
3. Internet of Things (IoT) in Manufacturing
4. Big Data and Analytics in Industry 4.0
5. Artificial Intelligence in Manufacturing
6. Digital Twin Technology
7. Augmented Reality (AR) in Smart Factories
8. Cloud Computing in Industrial Processes
9. Additive Manufacturing in Industry 4.0

10. Smart Sensors and Actuators
11. Communication Protocols in Industry 4.0
12. Robotics and Automation in Smart Factories
13. Blockchain in Supply Chain Management
14. Human-Machine Collaboration in Industry 4.0
15. Standards and Security in Industry 4.0
16. Case Studies in Implementing Industry 4.0
17. Predictive Maintenance in Smart Manufacturing
18. 3D Printing and Digital Fabrication
19. Energy Efficiency in Industry 4.0
20. Future Perspectives of Industry 4.0

Learning Outcomes:

Upon completion of this course the student will be able to:

- Grasp Industry 4.0 Fundamentals.
- Explore Automation and IoT Technologies.
- Analyze Data-Driven Decision-Making.
- Familiar with Electric vehicle energy management strategies.
- Learn from real-world examples of companies embracing Industry 4.0 technologies.

CIRCULAR

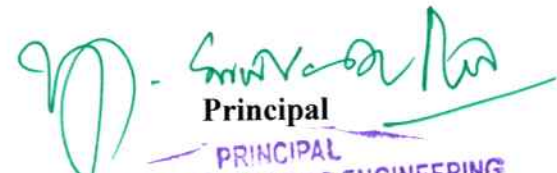

The Department of Civil Engineering is pleased to inform the 2nd and 3rd year Civil students about conducting A **Two-Week Add-On program on “Modeling of Drinking water Distribution Systems using EPANET”** for their enrichment in the field of modeling. This program is scheduled from **10-04-2023 to 21-04-2023** in the Central Computing Lab, Block I. EPANET is a software application used throughout the world to model water distribution systems. It was developed as a tool for understanding the movement and fate of drinking water constituents within distribution systems, and can be used for many different types of applications in distribution systems analysis.

Today, Engineers and Consultants use EPANET to design and size new water infrastructure, retrofit existing aging infrastructure, optimize operations of tanks and pumps, reduce energy usage, investigate water quality problems, and prepare for emergencies. In this regard, all the 2nd and 3rd year Civil students are requested to participate and benefit from the same. Complete the Registration process on or before 10-04-2023.

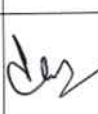

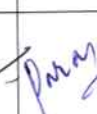

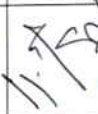

Venue: Central Computing Lab, Block – 1, SSCE.

ABOUT THE INSTITUTION

Sri Sivani College of Engineering (SSCE) is one of the colleges functioning under Sri Sivani Educational Society, established in 2006 affiliated to JNTUGV, Vizianagaram. UGC Recognition under 2(f) & 12(B). ISO 9001:2015 Certified. SSCE is situated in a spacious 12 acres campus adjacent to NH-16 at Chilakapalem, Srikakulam, Andhra Pradesh.

SSCE offers B. Tech programs in Civil, C.S.E, E.E.E, E.C.E, Mechanical Engineering and PG programmes M.B.A, M.Tech and Diploma programmes for Civil, E.E.E and Mechanical Engineering. Fully connected through Fiber Optics and Wi-Fi Networks, Endowed with fully Qualified, well experienced and seasoned faculty members equipped with industrial experience and fully established laboratories with state-of-the-art technologies meets the growing needs of the students.

ABOUT THE DEPARTMENT

The Department of CIVIL Engineering was established in the academic year 2009-10 with an annual intake of 30. The Department is accredited by AICTE, Delhi. The Department focuses on preparing the students for wide range of IT careers equipping them with unique enriching experience of molding tomorrow's technocrats with high caliber and commitment.

B.Tech. in Civil includes study of various aspects of civil engineering to meet the requirements of the various industries. The course contains study of the different civil engineering subjects such as structural, geotechnical, hydraulics, transportation etc. and its application, as well as the detailed study of civil engineering materials and their characteristics. The course of B.Tech in civil engineering trains an individual in the fields related to civil engineering structures and constructions. The four-year course that lead to a degree in Bachelor of Technology (B.Tech.), adopt a University-mandated semester system of 8 semesters. Each semester is of 16 weeks duration. University examinations are held at the end of each semester.

- **Objectives of the Program:**
 - ✓ Impart basic knowledge of analysis of water distribution networks.
 - ✓ Provide knowledge of EPANET Software to perform analysis of pipe networks.
 - ✓ Tracks the flow of water in each pipe, the pressure at each node, the height of the water in each tank, a chemical concentration, the age of the water, and source tracing throughout the network during a simulation period.
 - ✓ Provide hands on experience on EPANET Software.

- **Topics Covered**

Module 1:

- Basic of water supply scheme
- Components
- Design principle
- Hydraulic

Module 2:

- Basic of EPANET
- Introduction
- Workspace intro
- Simple network model

Module 3:

- Steady state analysis
- Introduction
- Draw one network
- Analysis of the network
- Results in different format
- Hands on session

Module 4:

- Extended period analysis
- Introduction
- Draw one network
- Analysis of the network
- Hands on session

Module 5:

- Water quality analysis
- Introduction
- Draw one network
- Analysis of the network
- Results in different format
- Hands on session

- **Outcomes of the Program: On completion of this program, student can:**
 - ✓ Draw a network representing water distribution system.
 - ✓ Find the pipe discharges and hydraulic heads of each node by giving required input parameters.
 - ✓ Observe the uncertainties in discharge and pressure (HGL) for the real network
 - ✓ Understands the movement and fate of drinking water constituents within distribution systems.
 - ✓ Perform extended-period simulation of the hydraulic and water quality behavior within pressurized pipe networks, which consist of pipes, nodes (junctions), pumps, valves, storage tanks, and reservoirs.

- **Number of participants: 41**

ABOUT THE INSTITUTION

Sri Sivani College of Engineering (SSCE) is one of the colleges functioning under Sri Sivani Educational Society. SSCE is a pioneer in the field of engineering education in Srikakulam district (A.P). It was established in the year 2006 under the affiliation of JNT UGV, Vizianagaram and approved by AICTE, New Delhi. The college is UGC Recognition under 2(f) & 12(B), ISO 9001:2015 Certified) SSCE is situated in a spacious 11 acres campus adjacent to NH-16 at chilkapalem village. The college is easily accessible to all the districts nearby Srikakulam. SSCE offers B.Tech programmes in E.E.E, E.C.E, C.S.E, Mechanical and Civil Engineering, besides PG programmes M.C.A, M.B.A, M.Tech and Diploma programmes like E.E.E, Mechanical, and Civil Engineering as second shift. SSCE is completely Wi-Fi enabled and equipped with well established laboratories. The college has focused towards student centric learning atmosphere. The faculty is well qualified, experienced equipped with state of art technologies and dedicated to produce marketable products.

ABOUT THE DEPARTMENT

The Department of Humanities and Basic Sciences, Sri Sivani College of Engineering was established in the year 2006. The department has always been on a progressive path, thanks to the experienced and dedicated faculty members who have a strong commitment towards providing quality engineering education.

A TWO-WEEK ADD-ON PROGRAM ON "STATISTICAL DISTRIBUTIONS"

(08th - 19th May 2023)

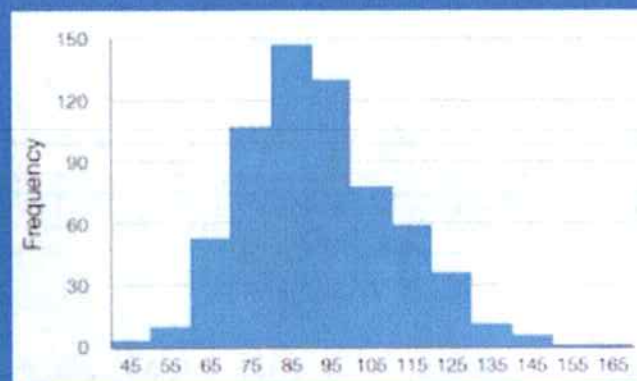

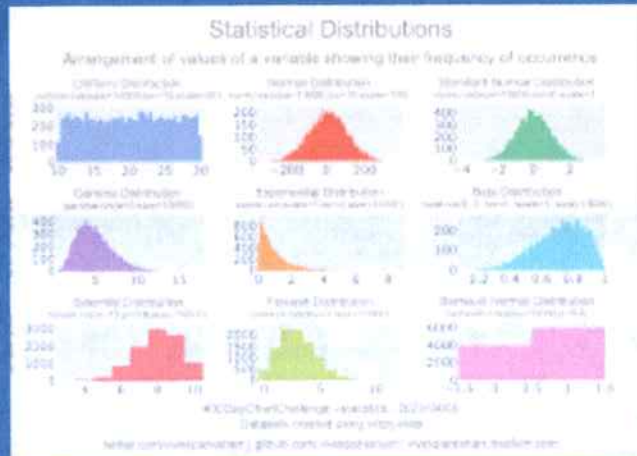

Organized by
Department of Humanities &
Basic Sciences

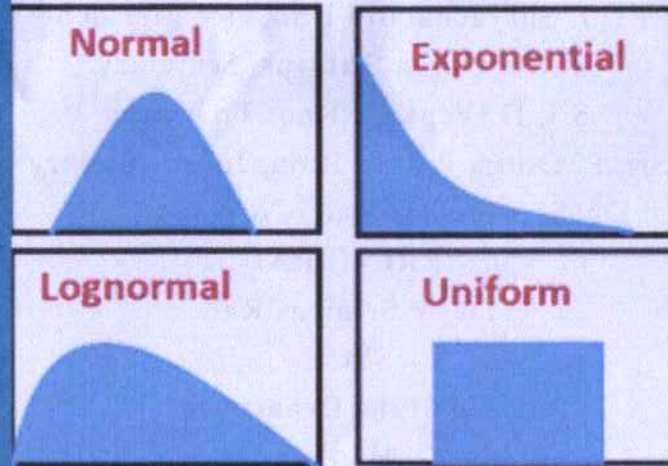

**SRI SIVANI
COLLEGE OF
ENGINEERING**

PROGRAM SCHEDULE:

1. Conditional probability
2. Bayes theorem
3. Binomial distribution
4. Poisson distribution
5. Normal distribution
6. Properties
7. Moment generating function
8. Sampling distributions

Probability Distributions

OBJECTIVES:

1. Understand how the sampling app in steterunch works and why we use it.
2. Understand that the distribution of the data can have many different shapes. Sample size cannot change the shape.
3. The spread of the sample mean is called the standard error and can be calculated with the formula.
4. Student will need to use this app later, to check the reliability of the data analysis.

DEPARTMENT OF HUMANITIES & BASIC SCIENCES

Academic year: 2022-23

Date: 23-05-2023

PROGRAM REPORT

Name of the program : A Two Week Add-On Program on “**Statistical Distributions**”.

Duration of the program : 08-05-2023 to 19-05-2023

Details of Resource Person : Mr.K.Kotibabu,
Assistant Professor,
Dept. of H&Bs,
Sri Sivani College of Engineering
Kotibabu242@gmail.com
9440561252

Details of Program co ordinator : Mrs .R.Nagamani, M.Sc,
Asst Professor,
Dept. of H&Bs,
Sri Sivani College of Engineering

Objectives of the program:

- Understand how the sampling app in stetchrunch works and why we use it.
- Understand that the distribution of the data can have many different shapes. Sample size can't change the shape.
- The spread of the sample mean is called the standard error and can be calculated with the formula.
- You will need to use this app latter, to check the reliability of the data analysis.

Topics covered:

1. Conditional Probability.
2. Bayes theorem.
3. Binomial Distribution.
4. Poisson distribution.
5. Normal Distribution.
6. Properties.
7. Moment generating function.
8. Sampling Distributions.

Outcomes of the program:

On completion of the course, student should be able to:

1. Be able to calculate probabilities for averages based on the average being close to normally distributed.
2. Be able to assess in the sample average is close to normal based on the histogram of the data and the sample size.
3. Be able to do “sum” type calculations.

Number of participants : 102
