CIRCULAR

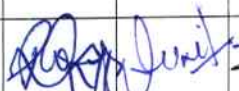

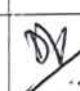

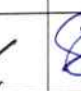

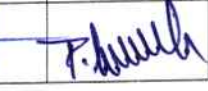

This is to inform that the Department of Computer Science and Engineering is organizing **A Two-Week Add-On Program on "Cyber Security"** during **01-07-2019 to 13-07-2019** to the second year CSE students to enhance their programming knowledge applicable for job opportunities. The goal of cyber security is to ensure secure storage, control access and prevent unauthorized processing, transfer, or deletion of data. It safeguards the confidentiality, integrity, and availability of information. In this regard, I suggest all the second year CSE students to enroll this course without fail on or before 29-06-2019.

ABOUT THE INSTITUTION

Sri Sivani College of Engineering (SSCE) is one of the colleges functioning under Sri Sivani Educational Society, established in 2006 affiliated to JNTUK, Kakinada. UGC Recognition under 2(f) & 12(B). ISO 9001:2008 Certified. SSCE is situated in a spacious 12 acres campus adjacent to NH-16 at Chilakapalem, Srikakulam, Andhra Pradesh. SSCE offers B. Tech programs in Civil, C.S.E, E.E.E, E.C.E, Mechanical Engineering and PG programmes M.B.A, M.Tech and Diploma programmes for Civil, E.E.E and Mechanical Engineering. Fully connected through Fiber Optics and Wi-Fi Networks, Endowed .

ABOUT THE DEPARTMENT

The Department of Computer Science & Engineering of Sri Sivani College of Engineering was established in the year 2006 and playing a vital role in designing, developing maintaining software and hardware for the entire college. It has been offering full time B. Tech (CSE), M.Tech (CSE) courses.

The Department has been advancing at a rapid pace with the acquisition of advanced facilities and dedicated teaching faculty to properly motivate and mould the students for a better and prospective tomorrow. The Department is adequately equipped with several computer laboratories and research groups in order to enhance R & D and consult

Objectives of the program:

- Confidentiality of the organization's systems.
- Availability of the system
- non-repudiation of data
- authentication of data
- accountability

Topics covered:

- Cyber Law Research Topics
- Application Research Topics
- Data Security Research Topics
- Research Topics in Cyber Crime
- Network Security Research
- Information Security
- Operational Security
- Computer Security

- Cyberbullying Research
- Mobile Applications
- Algorithms For Data Encryption
- Risk Management Security

Outcome of the program:

- Prevent disruptions caused by denial-of-service (DoS) attacks, system failures, or network outages.
- Implementing redundancy, backup systems, and disaster recovery plans, organizations can maintain the availability of critical resources and services.
- Cyber security provides Confidentiality, Integrity, and Availability of the organization's systems, network, and data.
- Identify, Protect, Detect, Respond, Recover, with awareness and training as key objectives within the Protect function.
- cyber security is to ensure secure storage, control access and prevent unauthorized processing, transfer, or deletion of data.
- Detecting and understanding cyber security events to identify cyber security incidents.

CIRCULAR

This is to inform that the Department of Civil Engineering is organizing **A Two-Week Add-On Program on "Construction Project Management"** during **15-07-2019 to 27-07-2019** to the 4th year Civil students. The main objective of Project management is to enhance project performance and produce better outcomes. Project management helps the construction manager to gather data and information from the relevant disciplines and communicate them more effectively. The project management scope of work typically includes project planning, coordination, and control.

In this regard, I suggest all the 4th year Civil students to enroll this course on or before 13th July 2019.

Venue: Central Computing Lab, Block – 1, SSCE.

SRI SIVANI COLLEGE OF ENGINEERING

About the Institution

Sri Sivani College of Engineering was established in the year 2006 by the highly motivated and philanthropic personalities well noted in the Srikakulam district for their commitment and concern for upliftment of education. The College recognizes the vital need to produce competent engineering professionals and techno managerial professionals for the development of country. It is spread over 11.10 acres of land, with picturesque landscape providing calm learning atmosphere. The campus is eco-friendly and an ideal location for studies. The institution is established as a co-educational institution and permanently affiliated to JNTUK, Kakinada.

The Management believes in the three principles for the success of true education based on discipline, dedication and commitment. Here the environment is free from all limitations and tensions. The institution aims at achieving excellence in engineering education, not only at basic level but also at advanced levels. Sri Sivani is the abode where the experienced faculty with their broader vision set their goals to fulfill the dreams of the students with better employability skills. Campus recruitments are often conducted by inviting renowned companies. Healthy atmosphere pervades within and outside the campus. Competitive spirit is encouraged among the students. Every year students are presented with meritorious awards and gold medals based on their performance.

About the Department

The Department of Civil Engineering in Sri Sivani College of Engineering was established in the year 2009 offering full time B. Tech (Civil). The Department has been advancing at a rapid pace with acquisition of advanced facilities, R&D, and dedicated teaching faculty to properly motivate and mould the students for a better and prospective tomorrow. The strength of the department exists in the physical laboratories:

1. Surveying Field Work
2. Geotechnical Engg
3. Hydraulics
4. Strength of Materials
5. Concrete Technology
6. Environmental Engg
7. Engineering Geology
8. CAD / STAAD Pro

Construction Project Management

About Construction Project Management

Construction project management is the process of planning, organizing, directing, and controlling the execution of a construction project. It is the process of managing a construction project from start to finish.

It includes all aspects of planning, organizing, leading, and controlling the work on a construction project. The project manager's goal is to ensure that the construction project is completed on time and within budget.

- **Objectives of the program:**

Project planning: Developing a framework for project execution, monitoring, and control

Construction safety and health: Overseeing the development process from initial design to final handover

Construction technology: Exploring opportunities for the rationalization of construction systems and production methods

Law for construction: Understanding contractual agreements and contract law

Risk management: Managing risks, assumptions, and constraints

- **Topics Covered**

1. Production Planning & Site Management
2. Project Monitoring
3. Project Control
4. Project Learning
5. Bidding
6. Scheduling
7. Time Management
8. Cost Management
9. Quality Management
10. Safety Management
11. Risk Management
12. Introduction to Project Management
13. Project management systems and Techniques
14. Project cost Engineering
15. Project Procurement and Materials Management
16. Project formulation and appraisal
17. Project Finance and Structuring
18. Project Quality Management Systems
19. Project Equipment Management
20. Contracts and Claim Management
21. Sustainability in the Construction Industry
22. Environment, Health, and Safety of Construction Processes
23. Building Information Modeling (BIM) and Technology Trends in Construction
24. Project Closeout Process

- **Outcome of the Program:**

After completion of the program, the student gains knowledge about

- The challenges of a changing construction industry
- Covering law and contract, sustainability, business management, project management, and innovation
- Building codes and regulations, project management principles, and safety procedures
- The types of technologies, strategies, and methodologies that arise in the construction industry
- Quality control, safety aspects and store management of a construction project.

Academic Year: 2019– 2020

Date: 18/07/2019

PROGRAM SCHEDULE

Name of the Program: A Two Week Add-on Program on “Nano technology for mechanical engineers”

S.NO	DATE	Topics to be covered
01	22/07/2019	Understanding Nanotechnology Principles
02	23/07/2019	Significance of Nanotechnology in Mechanical Engineering
03	24/07/2019	Exploring Nanomaterials and Their Unique Properties
04	25/07/2019	Applications of Nanomaterials in Engineering
05	26/07/2019	Nanoscale Mechanical Behavior of Materials
06	27/07/2019	Implications for Mechanical Engineering
07	29/07/2019	Nanoscale Experiment Demonstrations
08	30/07/2019	Practical Applications of Nanotechnology
09	31/07/2019	Methods for Nanoscale Fabrication,
10	01/08/2019	Impact of Nanotechnology on Mechanical Systems
11	02/08/2019	Innovations and Design with Nanotech
12	03/8/2019	Industry Trends in Nanotechnology

Objective of the Program

The "Industry 4.0" add-on program is designed to introduce students to the concepts and technologies associated with the fourth industrial revolution. The objective is to prepare students for the changing landscape of industry by equipping them with knowledge and skills related to automation, IoT, and data-driven decision-making.

ABOUT THE INSTITUTION

Sri Sivani College of Engineering (SSCE) is one of the colleges functioning under Sri Sivani Educational Society, established in 2006 affiliated to JNTUK, Kakinada. UGC Recognition under 2(f) & 12(B). ISO 9001:2008 Certified. SSCE is situated in a spacious 12 acres campus adjacent to NH-16 at Chilakapalem, Srikakulam, Andhra Pradesh.

SSCE offers B. Tech programs in Civil, C.S.E, E.E.E, E.C.E, Mechanical Engineering and PG programmes M.B.A, M.Tech and Diploma programmes for Civil, E.E.E and Mechanical Engineering. Fully connected through Fiber Optics and Wi-Fi Networks. Endowed with fully Qualified, well experienced and seasoned faculty members equipped with industrial experience and fully established laboratories with state-of-the-art technologies meets the growing needs of the students.

ABOUT THE DEPARTMENT

SCE started Mechanical Engineering programme in 2009. The Faculty in the department are in the track of excellence in terms of qualification and experience. Coming from various reputed universities, industries and research oriented organizations, faculty are committed to the noble cause of teaching learning process synchronizing with their efforts. It gives facilities to train in analytical, simulation, design and development and experimental techniques in the Capstone Project. Our department students are developing good research skills, technical and managerial skills which help them to become good technocrats in the society. The laboratories under various domains are fully equipped with up to date experimental facilities and machineries to train our students and to conduct research. Its got trained in Solid Edge design laboratory, AutoCAD, and ANSYS software. They are also trained in characterizing the microstructure of materials using optical microscope interfaced with image analyzer, hardness tester after making heat treatment such as quenching and tempering, induction hardening and normalizing. These kinds of laboratory trainings are very essential to work in various industries. The departmental project allows students to develop innovative concepts on advanced technology

Department of Mechanical Engineering

Academic Year: 2019– 2020

Date: 5/08/2019

PROGRAM REPORT

Name of the Program : A Two Week Add-on Program on Nano Technology

for Mechanical engineers

Program Duration : Two weeks (22/7/2019 to 3/8/2019, 12days)

Resource Person Details : Mr.L. S. S. Deekshit, M.Tech(Phd)

Assoc. Professor, Mechanical Department

Sri Sivanicollege of engineering, Srikakulam

Contact number: 8897730676

Program Coordinator Details : Mr.N. Ravi Shankar, M.Tech

Asst. Professor, Mechanical Department

Sri Sivani College of Engineering, Srikakulam

Contact number:7799336774

Number of Students attended : 171

Program Venue : Seminar hall

Program Objectives:

- To provide students with a profound understanding of nanotechnology and its applications in the field of mechanical engineering.

- To foster knowledge, skills, and an innovative mindset that will empower students to navigate and contribute to the rapidly evolving landscape where nanotechnology intersects with mechanical engineering.

Topics covered:-

1. Introduction to Nanotechnology
2. Nanomaterials: Properties and Classification
3. Nanofabrication Techniques
4. Nanomechanics and Nanotribology
5. Nanoscale Heat Transfer
6. Applications of Nanomaterials in Mechanical Engineering
7. Nanotechnology in Energy Storage
8. Nanosensors and Nanodevices
9. Nanocomposites in Structural Materials
10. Nanomedicine and Biotechnology
11. Nanorobotics and Nanoscale Manufacturing
12. Environmental Impacts of Nanotechnology
13. Ethical Considerations in Nanotechnology
14. Nanotechnology Safety and Regulations
15. Case Studies in Nanotechnology Applications
16. Nanotechnology in Aerospace Engineering
17. Nanotechnology in Electronics
18. Nanotechnology for Renewable Energy
19. Nanotechnology in Textiles and Materials
20. Future Trends in Nanotechnology

Learning Outcomes:

Upon completion of this course the student will be able to:

- Grasp Fundamentals of Nanotechnology
- Explore Nanomaterials and Their Properties
- Explore the mechanical behavior of materials at the nanoscale.
- Comprehend the implications of nanomechanics in mechanical engineering.
- Master Nanofabrication Techniques
- Analyze how nanotechnology is transforming mechanical systems, components, and design.
- Evaluate the practical applications of nanotechnology in mechanical engineering.

CIRCULAR

Here by informed that the Department of Electrical and Electronics Engineering is planning to organize A Two-week Add-On Program on "Industrial Automation with PLC & SCADA" from 19-08-2019 to 31-08-2019 for 3rd & 4th year EEE students. This program aims to equip students with the necessary skills to effective design, program and trouble shoot industrial automation systems using Programmable Logic Controllers (PLC) and Supervisory Control and Data Acquisition (SCADA) systems. In this regard, I suggest all the 3rd & 4th year EEE students to enroll this program on or before 17-08-2019.

Venue: Seminar Hall, Block – 1, SSCE.

ABOUT THE INSTITUTION

Sri Sivani College of Engineering (SSCE) is one of the colleges functioning under Sri Sivani Educational Society. SSCE is a pioneer in the field of engineering education in Srikakulam district (A.P). It was established in the year 2006 under the affiliation of JNT University, Kakinada and approved by AICTE, New Delhi. The college is UGC Recognition under 2(f) & 12(B) Accredited by NAAC, ISO 9001:2008 Certified) SSCE is situated in a spacious 11 acres campus adjacent to NH-16 at chilkapalem village. The college is easily accessible to all the districts nearby Srikakulam.

SSCE offers B.Tech programmes in E.E.E, E.C.E, C.S.E, Mechanical and Civil Engineering, besides PG programmes M.C.A, M.B.A, M.Tech and Diploma programmes like E.E.E, Mechanical, and Civil Engineering as second shift. SSCE is completely Wi-Fi enabled and equipped with well established laboratories. The college has focused towards student centric learning atmosphere. The faculty is well qualified, experienced equipped with state of art technologies and dedicated to produce marketable products.

ABOUT THE DEPARTMENT

The department is well focused and student centric with clear vision. The department of Electrical and Electronics Engineering is one of the oldest and major departments of the Institute. Since its inception in 2006, the department has been actively engaged in teaching and research in diverse fields of Electrical and Electronics Engineering. The department offers B.Tech in EEE with an intake of 60 students and M.Tech in Power Electronics with an intake of 18 students. The department is strong with a few faculty members holding Ph.D degrees and expertise in various fields. The department of EEE has adequate and well-qualified faculties spanning all major areas of Electrical Engineering like Power Systems, Power Electronics and Control Systems. Apart from regular academics, department organizes department association activities to encourage and motivate the students to achieve their goals. Department also encourages the students to participate in technical events organized by other universities and colleges.

Assistant Professor,
Dept. of EEE,
Sri Sivani College of Engineering
bseshasai211@gmail.com
85008 93764

- **Objectives of the program:**

- To introduce the concepts and importance of industrial automation in modern manufacturing processes.
- To provide a comprehensive understanding of PLCs, their architecture, and programming languages.
- To familiarize participants with the fundamentals of SCADA systems and their role in industrial automation.
- To develop practical skills in designing ladder logic programs for PLCs.
- To enable participants to configure and interface PLCs with SCADA systems.
- To facilitate hand-on experience in implementing automation projects using industry-standard hardware and software.

- **Topics covered:**

1. Introduction to industrial automation
2. Fundamentals of PLC
3. PLC programming
4. SCADA systems
5. Human-Machine Interface(HMI)
6. Communication protocols
7. Advanced topics:
 - 7.1. PID control and loop tuning
 - 7.2. Redundancy and fault-tolerance systems
 - 7.3. Integration with other automation devices(sensors, actuators, etc.)
8. Designing and implementing a small-scale industrial automation system.
9. Troubleshooting and debugging PLC and SCADA programs.
10. Hand on PLC training kit
11. Hand on PLC training kit

- **Outcomes of the program:**

On completion of the course, student should be able to:

- Understand the principles and fundamentals of industrial automation.
- Gain knowledge of Programmable Logic Controllers(PLCs) and Supervisory Control and Data Acquisition(SCADA) systems.
- Develop skills in designing, programming, and troubleshooting PLC-based automation systems.
- Learn how to configure and use SCADA software for data acquisition and visualization.
- Acquire hands-on experience in implementing automation projects using PLCs and SCADA.

CIRCULAR

Here by informed to all the students of MBA, that the Department of Management Studies is planning to organize **A Two-week Add-On Program on "GST Calculations"** from **16-09-2019** to **28-09-2019**. This program is aimed at enhancing your skills and knowledge in the field of GST Calculations that how to do make calculations in accountancy. In this regard, I suggest all the 1st and 2nd year MBA students to enroll this program on or before **09-09-2019**.

Venue: Seminar Hall, Block – 1, SSCE.

ABOUT THE INSTITUTION

Sri Sivani College of Engineering was established in the year 2006 by the highly motivated and philanthropic personalities well noted in the Srikakulam district for their commitment and concern for upliftment of education. The College recognizes the vital need to produce competent engineering professionals and techno managerial professionals for the development of country. It is spread over 11.10 acres of land, with picturesque landscape providing calm learning atmosphere. The campus is eco-friendly and an ideal location for studies. The institution is established as a co-educational institution and permanently affiliated to JNTUK, Kakinada.

The Management believes in the three principles for the success of true education based on discipline, dedication and commitment. Here the environment is free from all limitations and tensions. The institution aims at achieving excellence in engineering education, not only at basic level but also at advanced levels. Sri Sivani is the abode where the experienced faculty with their broader vision set their goals to fulfill the dreams of the students with better employability skills. Campus recruitments are often conducted by inviting renowned companies. Healthy atmosphere pervades within and outside the campus. Competitive spirit is encouraged among the students. Every year students are presented with meritorious awards and gold medals based on their performance.

CIRCULAR

This is to inform that the Department of Mechanical Engineering is organizing **A Two Week Add-on Program on "Generative Design for Additive Manufacturing"** from **16/09/2019 to 28/09/2019**. This program focuses on the basics of geometry creation and a deeper understanding of generative design, its parameters, and how to work with the results specifically aimed at making a 3D printed metal part and to develop insightful understanding of the generative workflow by exploring Autodesk Fusion 360 tools. In this regard, I suggest all 2nd year mechanical students to enroll this course on or before 13/09/2019.

PROGRAM SCHEDULE

Name of the Program: A Two Week Add-on Program on “Generative Design for Additive Manufacturing”

S.NO	DATE	Topics to be covered
01	16/09/2019	Comparing shape optimization to generative design, Fusion 360 interface, basics of sketching
02	17/09/2019	Creating solid bodies, understanding bodies and components
03	18/09/2019	Creating obstacle geometry for walls, shelf and hardware
04	19/09/2019	Learning resources and online communities from Autodesk
05	20/09/2019	Generative design workspace, study settings, material selection
06	21/09/2019	Defining generative objectives, obstacle regions, preserve regions
07	23/09/2019	Setting up load, selecting manufacturing method, previewer
08	24/09/2019	Solving generative study, viewing generative outcome live
09	25/09/2019	Selecting outcomes, creating 3D design, viewing and editing designs, exporting mesh design, Practice exercises,
10	26/09/2019	Post processing additive manufacturing – creating box primitive, using edit form, creasing & uncreasing edges, freeze & unfreeze
11	27/09/2019	Additional form tools, exploring design timeline, manipulating a form, manually patching a form body, exporting STL
12	28/09/2019	Practice exercise 1, 2, 3, 4

ABOUT THE INSTITUTION

Sri Sivani College of Engineering (SSCE) is one of the colleges functioning under Sri Sivani Educational Society, established in 2006 affiliated to JNTUK, Kakinada. UGC Recognition under 2(f) & 12(B). ISO 9001:2008 Certified. SSCE is situated in a spacious 12 acres campus adjacent to NH-16 at Chilakapalem, Srikakulam, Andhra Pradesh.

SSCE offers B. Tech programs in Civil, C.S.E, E.E.E, E.C.E, Mechanical Engineering and PG programmes M.B.A, M.Tech and Diploma programmes for Civil, E.E.E and Mechanical Engineering. Fully connected through Fiber Optics and Wi-Fi Networks, Endowed with fully Qualified, well experienced and seasoned faculty members equipped with industrial experience and fully established laboratories with state-of-the-art technologies meets the growing needs of the students.

ABOUT THE DEPARTMENT

SSCE started Mechanical Engineering programme in 2009. The Faculty in the department are in the track of excellence in terms of qualification and experience. Coming from various reputed universities, industries and research oriented organizations, faculty are committed to the noble cause of teaching learning process synchronizing with their efforts. It gives facilities to train in analytical, simulation, design and development and experimental techniques in the Capstone Project. Our department students are developing good research skills, technical and managerial skills which help them to become good technocrats in the society. The laboratories under various domains are fully equipped with up to date experimental facilities and machineries to train our students and to conduct research. Its got trained in Solid Edge design laboratory, AutoCAD, and ANSYS software. They are also trained in characterizing the microstructure of materials using optical microscope interfaced with image analyzer, hardness tester after making heat treatment such as quenching and tempering, induction hardening and normalizing. These kinds of laboratory trainings are very essential to work in various industries. The departmental project allows students to develop innovative concepts such as robot, automated cars and solar powered equipments and alternate fuel development etc.

OBJECTIVE OF THE PROGRAM

To Describe shape optimization to generative design, Fusion 360 interface, and basics of sketching.
To Illustrate Generative design workspace, study settings, material selection. Selecting outcomes, creating 3D design, viewing and editing designs, exporting mesh design, Practice exercises, and finally Describe post processing additive manufacturing – creating box primitive, using edit form, creasing & uncreasing edges, freeze & unfreeze

RESOURCE PERSON

Mr. S. Laxmana Raju, Asst.Prof,

Program Content

Understanding shape optimization to generative design, Fusion 360 interface, and basics of sketching.

Defining generative objectives, obstacle regions, preserve regions, setting up load, selecting manufacturing method, previewer.

Solving generative study, view and edit generative outcome live, export mesh design.

Post process the mesh design for additive manufacturing.

Department of Mechanical Engineering

Academic Year: 2019– 2020

Date: 30/09/2019

PROGRAM REPORT

Name of the Program : A Two Week Add-on Program on Generative Design
for Additive Manufacturing

Program Duration : Two weeks (16/09/2019 to 28/09/2019, 12days)

Resource Person Details : Mr. S. LaxmanRaju, Asst.Prof,
Mechanical eng.Dept,
Sri Sivani College of Engineering
Ph.No: 9440678357

Mail: laxman.raju@yahoo.com

Program Coordinator Details : Smt. S. Kiranmai, M.Tech
Asst. Professor, Mechanical Department
Sri Sivani College of Engineering, Srikakulam
Contact number:9440946009

Number of Students attended : 75

Program Venue : CSE lab, Block-1 2nd Floor

Program Objectives:

- Describe shape optimization to generative design, Fusion 360 interface, and basics of sketching.

- Selecting outcomes, creating 3D design, viewing and editing designs, exporting mesh design, Practice exercises
- Describe post processing additive manufacturing – creating box primitive, using edit form, creasing & uncreasing edges, freeze & unfreeze.

Topics Covered:

Comparing shape optimization to generative design, Fusion 360 interface, basics of sketching

Creating solid bodies, understanding bodies and components.

Creating obstacle geometry for walls, shelf and hardware

Learning resources and online communities from Autodesk.

Generative design workspace, study settings, material selection

Defining generative objectives, obstacle regions, preserve regions

Setting up load, selecting manufacturing method, previewer

Solving generative study, viewing generative outcome live

Selecting outcomes, creating 3D design, viewing and editing designs, exporting mesh design,

Practice exercises,

Post processing additive manufacturing – creating box primitive, using edit form, creasing,

& uncreasing edges, freeze & unfreeze.

Additional form tools, exploring design timeline, manipulating a form, manually patching a form

body, exporting STL.

Practice exercise 1, 2, 3, 4

18. Cost Analysis in Generative Design

19. Intellectual Property and Generative Design

20. Future Directions in Generative Design

Learning Outcomes:

Upon completion of this course the student will be able to:

- Understand shape optimization to generative design, Fusion 360 interface, and basics of sketching
- Define generative objectives, obstacle regions, preserve regions, setting up load, selecting manufacturing method, previewer
- Solve generative study, view and edit generative outcome live, export mesh design.
- Post process the mesh design for additive manufacturing.

CIRCULAR

This is to inform that the Department of Electronics & Communication Engineering is organizing A Two Week Add-On Program on “Industrial Based PLC Programming” during 18-11-2019 to 30-11-2019 to the 1st and 2nd year CSE, ECE and EEE M.Tech students to enhance their skills applicable for job opportunities. PLC or programmable Logic Controllers are logic controllers that make use of logic to automate various processes. PLC automation projects have application in a wide variety of industries including manufacturing, packing, cleaning, transportation and more. In this regard, I suggest all the students to enroll for this course on or before 12th November 2019.

Venue: VLSI Lab, Block – 2, SSCE.

ABOUT THE INSTITUTION

Sri Sivani College of Engineering (SSCE) is one of the colleges functioning under Sri Sivani Educational Society, established in 2006 affiliated to JNTUK, Kakinada. UGC Recognition under 2(f) & 12(B). ISO 9001:2008 Certified. SSCE is situated in a spacious 12 acres campus adjacent to NH-16 at Chilakapalem, Srikakulam, Andhra Pradesh.

SSCE offers B. Tech programs in Civil, C.S.E, E.E.E, E.C.E, Mechanical Engineering and PG programmes M.B.A, M.Tech and Diploma programmes for Civil, E.E.E and Mechanical Engineering. Fully connected through Fiber Optics and Wi-Fi Networks, Endowed with fully Qualified, well experienced and seasoned faculty members equipped with industrial experience and fully established laboratories with state-of-the-art technologies meets the growing needs of the students.

ABOUT THE DEPARTMENT

The Department of Electronics and Communications Engineering was established in the academic year 2006-07 with an annual intake of 60. Since its commencement, the primary objective of the department has been to impart quality education, training and research at the undergraduate levels in Electronics and Communication Engineering with broad emphasis on design aspects of electronic systems.

The intake was increased to 120 from the academic year 2008-09. Five batches of students have graduated so far. The Department is offering two M.Tech courses Digital Electronics & Communication Systems and VLSI (VLSI). The first PG program DECS (Digital Electronics and Communication Systems) was started in the year 2010. The rapid developments in the field of Electronics triggered the inception of another PG programme on VLSI in the year 2011. The Department has sufficient spacious classrooms, well-equipped laboratories with an excellent infrastructure. The department has conducted many technical symposiums under the societies of IETE, ISTE and student association named MICROS (Minds of Innovative Communicative and Resplendent Organizing Society) and also has a close interaction with the alumni where their inputs are being used continuously for the improvement of curriculum.

SRI SIVANI COLLEGE OF ENGINEERING

A Two-Week Add-On Program on "Industrial Based PLC Programming"

18-11-2019 to 30-11-2019

ORGANIZED BY
DEPARTMENT OF ELECTRONICS AND
COMMUNICATION ENGINEERING

OBJECTIVE OF THE PROGRAM

The objective of this work is to use the PLC techniques for atomization of industrial product manufacturing to achieve high throughput and improved quality and consistency. Software validation and hardware implementation used for demonstrating the ease of operation with this control along with tuning of the entire system for the three applications are presented. The results from programming and experimental setup are presented with system hardware and software details along with the agreement between count of total time taken for each operation and the time set in program. The agreement between the parameters set in the programs and experimental results are reported. Methods/Statistical Analysis: This paper presents a study by simulation and experimental models for three types of applications of PLCs. The applications reported are automatic mixing and bottle filling, automatic counting and packing and automatic sorting

PROGRAM REPORT

Name of the Program : A Two Week Add-On Program on **Industrial Based PLC Programming**

Program duration : 18-11-2019 TO 30-11-2019

Name of the Resource Person & Details : Mrs.P.DAKSHYANI, M.Tech

Asst Professor

Dept. of E.C.E, talk2dakasha93@gmail.com

7569700231

Details of the Program Coordinator : Mr.B.NAVEEN, M.Tech

Objectives of the program:

- Industrial automation is the use of control devices such as PC/PLCs/PACs to control industrial processes and machinery by replacing as much as possible labour intervention and dangerous assembly operations with automated ones.
- In industrial control a wide number of process variables such as temperature, flow, pressure, distance, and liquid levels can be sensed simultaneously.
- All these variables are acquired, processed and controlled by microprocessor systems or PC based data processing controllers.

- Programmable Logic Controller (PLC) is a digital computer interface used for the automation of various electro-mechanical processes in industries.
- The program is written on a computer and is downloaded to the PLC via cable. These loaded programs are stored in non – volatile memory of the PLC.
- During the transition of relay control panels to PLC, the hard wired relay logic was exchanged for the program fed by the user. A visual programming language known as the Ladder Logic is mostly used to program the PLC.

Topics covered:

- PLC basic
- Ladder programming
- Sequential programming
- Selective branching
- Parallel branching
- Programmable logic controllers
- Input –output devices
- Number systems
- I/O Processing, Timers, Counters, Shift Registers
- IL, SFC and ST programming methods
- Internal relays, Data handling
- Designing systems

Outcomes of the program:

- Students will be able to describe typical components of a Programmable Logic Controller.
- Students will be able to explain the basic concepts of a Programmable Logic Controller.
- Students will be able to state basic PLC terminology and their meanings.
- Students will be able to explain and apply the concept of electrical ladder logic, its history, and its relationship to programmed PLC instruction.
- Students will be able to explain the concept of basic digital electronics and data manipulation.
- Students will be able to use timer, counter, and other intermediate programming functions.
- Students will be able to design and program basic PLC circuits for entry-level PLC applications. • Students will be able to design and program a small, automated industrial production line.

CIRCULAR

This is to inform that the Department of Electronics & Communication Engineering is organizing A Two Week Add-On Program on “Digital signal processing with MATLAB” during 04-11-2019 TO 15-11-2019 to the 3rd and 4th year ECE students to enhance their skills applicable for job opportunities. With MATLAB, you can build predictive models for signal processing applications. You can exploit built-in signal processing algorithms to extract features for machine learning systems as well as work with large datasets for ingesting, augmenting, and annotating signals when developing deep learning applications. In this regard, I suggest all the students to enroll for this course on or before 26th OCTOBER 2019.

Venue: VLSI Lab, Block – 2, SSCE.

ABOUT THE INSTITUTION

Sri Sivani College of Engineering (SSCE) is one of the colleges functioning under Sri Sivani Educational Society, established in 2006 affiliated to JNTUK, Kakinada. UGC Recognition under 2(f) & 12(B). ISO 9001:2008 Certified. SSCE is situated in a spacious 12 acres campus adjacent to NH-16 at Chilakapalem, Srikakulam, Andhra Pradesh.

SSCE offers B. Tech programs in Civil, C.S.E, E.E.E, E.C.E, Mechanical Engineering and PG programmes M.B.A, M.Tech and Diploma programmes for Civil, E.E.E and Mechanical Engineering. Fully connected through Fiber Optics and Wi-Fi Networks, Endowed with fully Qualified, well experienced and seasoned faculty members equipped with industrial experience and fully established laboratories with state-of-the-art technologies meets the growing needs of the students.

ABOUT THE DEPARTMENT

The Department of Electronics and Communications Engineering was established in the academic year 2006-07 with an annual intake of 60. Since its commencement, the primary objective of the department has been to impart quality education, training and research at the undergraduate levels in Electronics and Communication Engineering with broad emphasis on design aspects of electronic systems.

The intake was increased to 120 from the academic year 2008-09. Five batches of students have graduated so far. The Department is offering two M.Tech courses Digital Electronics & Communication Systems and VLSI (VLSI). The first PG program DECS (Digital Electronics and Communication Systems) was started in the year 2010. The rapid developments in the field of Electronics triggered the inception of another PG programme on VLSI in the year 2011.

The Department has sufficient spacious classrooms, well-equipped laboratories with an excellent infrastructure. The department has conducted many technical symposiums under the societies of IETE, ISTE and student association named MICROS (Minds of Innovative Communicative and Resplendent Organizing Society) and also has a close interaction with the alumni where their inputs are being used continuously for the improvement of curriculum.

Academic Year : 2019-20

DATE: 18-11-2019

PROGRAM REPORT

Name of the Program : A Two Week Add-On Program on **Digital signal processing with MATLAB**

Program duration : 04-11-2019 TO 15-11-2019

Name of the Resource Person & Details : Mrs.K.B.Rani M.Tech
Assistant Professor,
Dept. of E.C.E, kunduribaby@gmail.com
9347814796

Details of the Program Coordinator : Mrs. B.SNEHALATHA, M.Tech
Assistant Professor,
Dept. of E.C.E, ecedept.w6@gmail.com
9573884112

Objectives of the program:

- To study the time domain and frequency domain representation of signals
- Illustrate the information compression process, based on the conversion of an audio file in wave format to mp3 format.
- Demonstrate that through digital filleting, the amount of noise in an audio signal can be reduced.

Topics covered:

- Fundamentals of programming in the MATLAB language
- Creation of graphical user interfaces, designing and analyzing filters Layout design
- Performing spectral analysis
- Designing multi rate filters
- Designing adaptive filters
- Create noise signals for a given specifications
- Creating script executing programs

- How to analysis signals and design signal processing system using MATLAB
- Build predictive models for signal processing applications
- Creating and analyzing signals

Outcomes of the program:

- Many MATLAB examples are provided throughout the text to illustrate the mathematical concepts and use of digital signal processing algorithms.
- Topics include sampled signals and digital processing, random signals.
- To representing signals and systems and discrete –time and recursive filters.

CIRCULAR

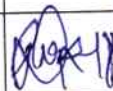

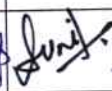

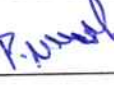

This is to inform that the Department of Computer Science and Engineering is organizing **A One-Week Add-On Program on "Artificial Intelligence"** during **09-12-2019 to 14-12-2019** to the final year CSE students to enhance their programming knowledge applicable for job opportunities. The goal of Artificial Intelligence is to develop machines with general AI capabilities that combine all the cognitive skills of humans and perform tasks with better proficiency than us. This can boost overall productivity as tasks would be performed with greater efficiency and free humans from risky tasks such as defusing bombs. In this regard, I suggest all the final year CSE students to enroll this course without fail on before 07-12-2019.

ABOUT THE INSTITUTION

Sri Sivani College of Engineering (SSCE) is one of the colleges functioning under Sri Sivani Educational Society, established in 2006 affiliated to JNTUK, Kakinada. UGC Recognition under 2(f) & 12(B). ISO 9001:2008 Certified. SSCE is situated in a spacious 12 acres campus adjacent to NH-16 at Chilakapalem, Srikakulam, Andhra Pradesh. SSCE offers B. Tech programs in Civil, C.S.E, E.E.E, E.C.E, Mechanical Engineering and PG programmes M.B.A, M.Tech and Diploma programmes for Civil, E.E.E and Mechanical Engineering. Fully connected through Fiber Optics and Wi-Fi Networks, Endowed.

ABOUT THE DEPARTMENT

The Department of Computer Science Engineering of Sri Sivani College of Engineering and Technology was established in the year 2006 and playing a vital role in designing, developing, maintaining software and hardware for the entire college. It has been offering full time B. Tech (CSE), M.Tech (CSE) courses. The Department has been advancing at a rapid pace with the acquisition of advanced facilities and dedicated teaching faculty to properly motivate and mould the students for a better and prospective tomorrow. The Department is adequately equipped with several full fledged computer laboratories and research groups in order to enhance R & D and consult.

Objectives of the program:

- Knowledge representation.
- Planning
- Learningrobotics
- Natural language processing
- Perceptionrobotics

Topics covered:

- Machine Learning
- Deep Learning
- Collaborative Filtering
- Robotics
- Natural Language Processing
- Computer Vision
- Big Data
- Unsupervised Learning

Outcome of the program:

- Faster decisions.
- Because of its ability to process mind-boggling amounts of data within the time required to carry out an action, AI and its first cousin machine learning (ML) can identify trends, patterns, and anomalies that produce valuable business insights.
- Error reduction.
- Process acceleration.
- Workflow improvement.
- Identify problems where artificial intelligence techniques are applicable.

Number of Participants: 82

CIRCULAR

This is to inform that the Department of Electronics & Communication Engineering is organizing **A Two Week Add-On Program on "VHDL"** during **20-1-2020 to 01-02-2020** to the 4th year ECE students to enhance their skills applicable for job opportunities. We utilize VHDL to write text models that describe or express logic circuits. If the text model is part of the logic design, the model is processed by a synthesis program. The next step in the process incorporates a simulation program to test the logic design. In this regard, I suggest all the students to enroll for this course on or before 18th January 2020.

Venue: VLSI Lab, Block – 2, SSCE.

ABOUT THE INSTITUTION

Sri Sivani College of Engineering (SSCE) is one of the colleges functioning under Sri Sivani Educational Society, established in 2006 affiliated to JNTUK, Kakinada. UGC Recognition under 2(f) & 12(B). ISO 9001:2008 Certified. SSCE is situated in a spacious 12 acres campus adjacent to NH-16 at Chilakapalem, Srikakulam, Andhra Pradesh.

SSCE offers B. Tech programs in Civil, C.S.E, E.E.E, E.C.E, Mechanical Engineering and PG programmes M.B.A, M.Tech and Diploma programmes for Civil, E.E.E and Mechanical Engineering. Fully connected through Fiber Optics and Wi-Fi Networks. Endowed with fully Qualified, well experienced and seasoned faculty members equipped with industrial experience and fully established laboratories with state-of-the-art technologies meets the growing needs of the students.

ABOUT THE DEPARTMENT

The Department of Electronics and Communications Engineering was established in the academic year 2006-07 with an annual intake of 60. Since its commencement, the primary objective of the department has been to impart quality education, training and research at the undergraduate levels in Electronics and Communication Engineering with broad emphasis on design aspects of electronic systems.

The intake was increased to 120 from the academic year 2008-09. Five batches of students have graduated so far. The Department is offering two M.Tech courses Digital Electronics & Communication Systems and VLSI (VLSI). The first PG program DECS (Digital Electronics and Communication Systems) was started in the year 2010. The rapid developments in the field of Electronics triggered the inception of another PG programme on VLSI in the year 2011.

The Department has sufficient spacious classrooms, well-equipped laboratories with an excellent infrastructure. The department has conducted many technical symposiums under the societies of IETE, ISTE and student association named MICROS (Minds of Innovative Communicative and Resplendent Organizing Society) and also has a close interaction with the alumni where their inputs are being used continuously for the improvement of curriculum.

SRI SIVANI COLLEGE OF ENGINEERING

A Two-Week Add-On Program on "VHDL"

20-01-2020 to 01-02-2020

ORGANIZED BY

DEPARTMENT OF ELECTRONICS AND
COMMUNICATION ENGINEERING

Objective of the Program

Objective VHDL is an extension of the hardware description language VHDL. It provides the constructs necessary to design hardware in an object-oriented way. Thereby, proven software engineering concepts for abstraction and reuse can be transferred to the hardware world. Moreover, the use of Objective VHDL facilitates the use of object-orientation as a design methodology that embraces both the hardware and software parts of an embedded system, independent of the fact that a different object-oriented language may be used for software. In addition to such specification techniques, we outline synthesis steps to generate high-level VHDL from an object-oriented system level model, enabling the use of commercial behavioral synthesis tools and simulators. All these concepts are demonstrated with an example used consistently in this contribution.

Objectives of the program:

- Introduction of digital logic families and inter facing concepts for digital design is considered.
- VHDL fundamentals were discussed to modeling the digital system design blocks.
- Design and implementation of combinational and sequential digital logic circuits is explained.

Topics covered:

- Introduction to VHDL
- Behavioural modeling
- Sequential modeling
- Data types
- Sub programs and packages
- Predefined attributes and configurations
- High level design flow
- Top level system design
- CPU top level design
- CPU: synthesis description
- CPU: RTL simulation and synthesis

Outcomes of the program:

- Understand the structure of commercially available digital integrated circuit families.
- Learn the IEEE Standard 1076 Hardware Description Language (VHDL).
- Model complex digital systems at several levels of abstractions, behavioral, structural, and rapid system prototyping.
- Analyze and design basic digital circuits with combinatorial and sequential logic circuits using VHDL.

ABOUT INSTITUTE

Sri Sivani College of Engineering (SSCE) is one of the colleges functioning under Sri Sivani Educational Society. SSCE is a pioneer in the field of engineering education in Srikakulam district (A.P). It was established in the year 2006 under the affiliation of JNTUK, Kakinada and approved by AICTE, New Delhi. The college is UGC Recognition under 2(f) & 12(B), ISO 9001:2008 Certified) SSCE is situated in a spacious 11 acres campus adjacent to NH-16 at chilkapalem village. The college is easily accessible to all the districts nearby Srikakulam. SSCE offers B.Tech programmes in E.E.E, E.C.E, C.S.E, Mechanical and Civil Engineering, besides PG programmes M.C.A, M.B.A, M.Tech and Diploma programmes like E.E.E, Mechanical, and Civil Engineering as second shift. SSCE is completely Wi-Fi enabled and equipped with well established laboratories. The college has focused towards student centric learning atmosphere. The faculty is well qualified, experienced equipped with state of art technologies and dedicated to produce marketable products.

ABOUT DEPARTMENT

The department is well focused and student centric with clear vision. The department of Electrical and Electronics Engineering is one of the oldest and major departments of the Institute. Since its inception in 2006, the department has been actively engaged in teaching and research in diverse fields of Electrical and Electronics Engineering. The department offers B.Tech in EEE with an intake of 60 students and M.Tech in Power Electronics with an intake of 18 students. The department is strong with a few faculty members holding Ph.D degrees and expertise in various fields. The department of EEE has adequate and well-qualified faculties spanning all major areas of Electrical Engineering like Power Systems, Power Electronics and Control Systems. Apart from regular academics, department organizes department association activities to encourage and motivate the students to achieve their goals. Department also encourages the students to participate in technical events organized by other universities and colleges.

OBJECTIVES

- Understand the principles and classifications of electrical machinery.
- Apply the fundamentals of electromagnetic to analyze magnetic circuits.
- Design transformers, taking into account design parameters and specifications.
- Design induction motors with a focus on performance and efficiency
- Design synchronous machines considering specific design criteria.
- Utilize ECAD software for modeling and simulation of electrical machinery.
- Design special machines, such as DC machines and stepper motors.
- Apply their knowledge and skills to complete a practical design project.
- Present and communicate their project findings effectively.

Topics covered:

- Introduction to Electrical Machinery Design
- Magnetic Circuit Analysis
- Transformer Design
- Induction Motor Design
- Synchronous Machine Design
- Special Machines and Projects

Outcomes of the program:

Upon successful completion of the program, participants will:

1. Possess a strong foundation in electrical machinery design principles.
2. Demonstrate proficiency in using ECAD software for designing electrical machinery.
3. Be equipped with the skills necessary to design transformers, induction motors, and synchronous machines.
4. Have practical experience in the design of special machines.
5. Be capable of analyzing and solving design challenges in electrical machinery.
6. Develop the ability to work on real-world electrical machinery design projects.
7. Gain confidence in presenting and explaining their design solutions.

CIRCULAR

This is to inform that the Department of Civil Engineering is organizing **A One -Week Certificate Program on "AutoCAD"** during **24-02-2020 to 29-02-2020** to the 2nd and 3rd year Civil students. As a Certified civil Engineer with knowledge of AutoCAD, you will be able to work across designing, building, managing, supervising, and maintaining various infrastructures such as roads, buildings, and tunnels. You will need to work on AutoCAD, perform site inspections, perform feasibility assessments, provide e-project estimates, liaison with clients, and optimize the production process. After completing AutoCAD program, you can also apply for advanced studies in the same field to further progress your career and earn profitable job opportunities.

In this regard, I suggest all the 2nd and 3rd year Civil students to enroll this course on or before 21st February 2020.

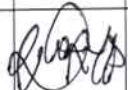

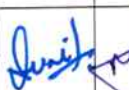

Venue: Central Computing Lab, Block – 1, SSCE.

ABOUT THE INSTITUTION

Sri Sivani College of Engineering (SSCE) is one of the colleges functioning under Sri Sivani Educational Society, established in 2006 affiliated to JNTUK, Kakinada. UGC Recognition under 2(f) & 12(B). ISO 9001:2008 Certified. SSCE is situated in a spacious 12 acres campus adjacent to NH-16 at Chilakapalem, Srikakulam, Andhra Pradesh.

SSCE offers B. Tech programs in Civil, C.S.E, E.E.E, E.C.E, Mechanical Engineering and PG programmes M.B.A, M.Tech and Diploma programmes for Civil, E.E.E and Mechanical Engineering. Fully connected through Fiber Optics and Wi-Fi Networks, Endowed with fully Qualified, well experienced and seasoned faculty members equipped with industrial experience and fully established laboratories with state-of-the-art technologies meets the growing needs of the students.

ABOUT THE DEPARTMENT

The Department of CIVIL Engineering was established in the academic year 2009-10 with an annual intake of 60. The Department is accredited by AICTE, Delhi. The Department focuses on preparing the students for wide range of IT careers equipping them with unique enriching experience of molding tomorrow's technocrats with high caliber and commitment.

B.Tech. in Civil includes study of various aspects of civil engineering to meet the requirements of the various industries. The course contains study of the different civil engineering subjects such as structural, geotechnical, hydraulics, transportation etc.. and its application, as well as the detailed study of civil engineering materials and their characteristics. The course of B.Tech in civil engineering trains an individual in the fields related to civil engineering structures and constructions. The four-year course that lead to a degree in Bachelor of Technology (B.Tech.), adopt a University-mandated semester system of 8 semesters. Each semester is of 16 weeks duration. University examinations are held at the end of each semester.

Date: 02-03-2020

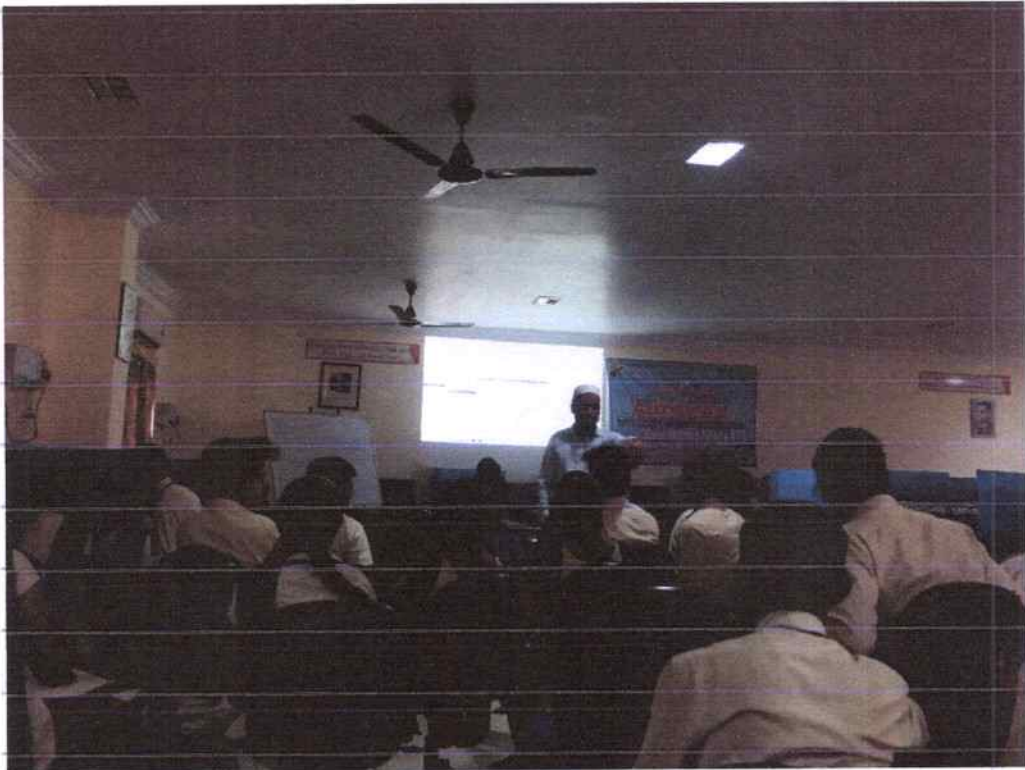

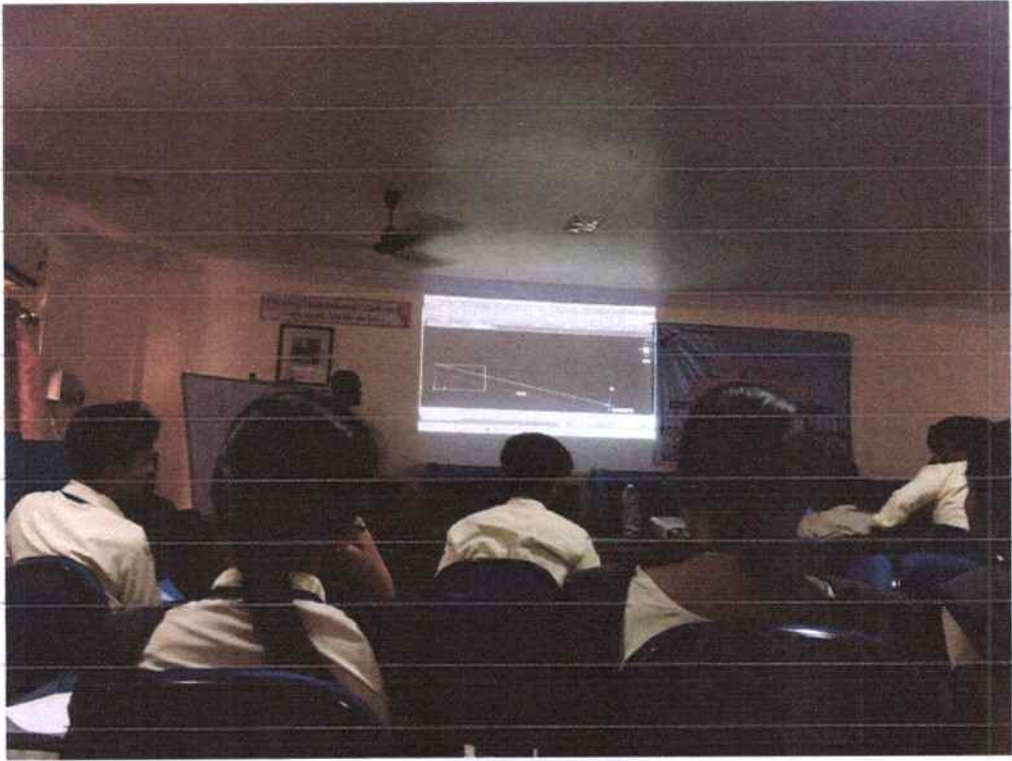

PROGRAM REPORT

- **Name of the Program:** A One-Week Certificate Program on “AutoCAD”
- **Program Duration:** 24-02-2020 to 29-02-2020
- **Name of the Resource Persons:**
 1. Mr. Dali Naidu
Trainer -APPSDC
Mobile-6302738962
dalinaidu.b@apssdc.in
 2. Mr. K Jaya Durga Phani
Trainer -APPSDC
Mobile-8897291878
jayadurga.k@apssdc.in
- **Details of the Program Coordinator:** Mr. D Manikanta,
M.Tech - Transportation Engineering
Asst. Professor
Department of Civil Engineering
SSCE, Chilakapalem
Mobile: 6305958501
Email: mani.tarakram@gmail.com
- **Objectives of the Program**
 - Introduction of computer aided drafting software and define its use in construction work.
 - Understand the basic building drawing fundamentals for creating and manipulate geometric models by CAD System
 - Apply the knowledge of innovative competencies of CAD to increase the creativity to design projects.
 - Visualize and draw the building components like truss, windows and doors.
 - Understand the concepts of various truss members and its applications

- **Topics Covered**

- Engineering Drawings
 - Introduction
 - Projections
- Coordinate System
 - Absolute
 - Relative
 - Polar
- AutoCAD
 - Introduction
 - GUI
- Setting of Units & Limits
- Draw Tools
- Modify Tools
- Blocks Creation
- Annotation Tools
- Layer Management
- Hatch
- Site Layout
- Vastu Considerations
- Creating Building Plan
- Creating Elevation
- Creating Sections
- Creating Columns Layout with Detailing
- Creating Beams Layout with Detailing
- Creating Footings Layout with Detailing
- Page Layout

- **Outcome of the Program: After completion of this course the students will be able to**
 1. Create the different wireframe primitives using parametric representations.
 2. Create surface primitives using parametric modeling.
 3. Create the different solid primitives using the different representation schemes.
 4. Apply geometric transformations on the created wireframe, surface and solid models.

- **Number of Participants: 78**
